# *THE BRENTONIAN*

## *"Pathfinders"*

We dedicate this annual to Mr. Robert G. Cooper, Mr. Nicholas R.B. Prowse and Mr. John L. Queen, in recognition of their extraordinary contributions to the life of our School.

Brentwood College School  
Box 1000, Mill Bay, British Columbia  
Canada, V0R 2P0

## PATHFINDERS

Yogi Berra once said, "If you see a fork in the road, take it." His instructions may serve as sage advice in a rather schizoid way. John Queen, our wonderfully dignified and wise housemaster of thirty-two years at the school phrased it differently in advising about choices, "If you're damned if you do and damned if you don't, then be damned and do!" Similarly, our maestro Robert Cooper suggested in his address to the grade 12s that they should pursue their dreams by using their imaginations. The schools third "pathfinder", Nick Prowse, a "dreamweaver" among teachers, saw his experience at Brentwood from the historical perspective, as he and other pioneers, including David Mackenzie, Bill Ross, Gil Bunch, Tony Carr and Jim Burrows "blazed a trail" for the rest of us to follow. All three of our pathfinders took that fork in the road, perhaps the one "less travelled", to use Robert Frost's expression, to find their ways to Brentwood College and we are grateful that they did.

I chose the Pathfinders theme for this year's annual, in order to honour the illustrious careers of the "big three" who retired this year, but also in response to a new beginning - Mrs. Andrea Pennells' inaugural year as Head of School. In a memorable address at a school assembly to announce the beginning of the "Millennium Trail", she alluded to the metaphorical nature of such a project, commemorating the "trail blazers" of the school, while pointing the way for future generations. Her speech appears later in the yearbook and summarizes, more eloquently than I can do, the theme of this annual.

Included also in the pages following is a record of the school's accomplishments, so I have no desire to summarize them here. I only wish to say that it was a memorable year to be "humbly hurled into the breach" of yearbook publications. This is a task that I did not take on lightly or in ignorance, having done a five year stint prior to Mrs. Melhuish's tenure. Five years ago, I looked upon Mrs. Melhuish as my salvation and now I find myself in the dog days of summer toiling away on this mighty undertaking. I suppose we are never finished with something until it is finished with us.

In preparing the yearbook, I would like to thank Mrs. Melhuish on maintaining the tradition of high quality work and I would like to thank those who contributed to the annual. So many have submitted photographs and information that it is impossible to acknowledge them all here, but the authors of the articles are included in the book and a list of photo credits is in the photography section. From the students who assisted me, I would like to single out Alex Cocks, who provided invaluable service when Meghan Richmond could not continue as student editor. In addition, Lindsay Mackenzie undertook many photography assignments, as did Mr. Gerry Pennells. Many of the magnificent photographs in this yearbook were taken by those two fine photographers, even though both had incredibly busy schedules. Finally, I owe a tremendous debt of thanks to Jennie O'Connor, who typed every word in this book and proofed it. I thank her for her tremendous work and her enthusiastic support.

Summertime when the yearbook is easy. Jennie and SMC.

As I grow older in this School, my already keen sense of history is made stronger by the sense of responsibility I have in keeping a record of the School's events and the people who make them happen. I am determined to "keep the faith" and carry on the traditions of the pathfinders, for without them, we might be, as that Irish wit John Garvey (ostensibly the first Irishman born in Brixton to walk upright) warned in Latin (don't ask me to remember it), "chained to an oar" or "left alone on a hillside to be devoured by wild beasts."

This, my first book of my second term, is a tribute to the pathfinders, Cooper, Prowse and Queen. On behalf of the School they served so well, I salute them. Cheers!

Steven Cowie

Alex Cocks

Lindsay Mackenzie

NICK PROWSE WAS OF COURSE AN INSPIRED TEACHER, ONE OF THE FINEST EVER AT COGNITION. BUT HE WAS SOMETHING FAR MORE. HE WAS A MENTOR IN A TIME OF NEW MENTORS, A MAN WHO, IN SPEAKING TO THE YOUNG, INVOKED THE MYSTIC THREADS OF IDEALITY AND HONORARY THAT HAVE ALWAYS BOUND ONE GENERATION TO THE NEXT. AS A HISTORIAN, HE SPUN DREAMS OF ANCIENT WORLDS THAT CHALLENGED US TO EMBRACE THE POTENTIAL OF THE FUTURE. AS A COACH, HE SOUGHT EXCELLENCE, BUT HE RAISED IT FURTHER, MEASURING HIS METRIC CHARGES NOT BY THEIR ACHIEVEMENTS ALONE, BUT BY THE INTENSITY OF THEIR DEVOTION, BY THE PURITY OF THEIR DESIRE, THE POWER OF THEIR WILL. IN THIS WAS THE PROWSE WAY.

WALTER DUNN, JR.

## THE PROWSE WAY

**Address to the Closing Ceremonies, Brentwood College School, by  
Lynn Eyton, Chairman of the Board of Governors  
June 23, 2001**

"Head of School, staff members, honoured guests, graduates, students, parents and families:

It is my great privilege and pleasure to bring greetings from the Board of Governors.

Last year we thanked Bill Ross for all his years as Headmaster and we welcomed Andrea Pennells as our new Head of School. I'm here to tell you how delighted the Board is by the smooth transition that has taken place this year. We have no doubt that the school is in good hands.

I heard that one of the marks of a good leader is that they starve the problem and feed the opportunities. Andrea does this! With your superb management team and together with our unbeatable and very dedicated teachers and support staff, you have provided for our students an exhilarating and safe place in which to learn and grow. Please join me in thanking Andrea Pennells and her marvelous staff.

I do want to mention the many people who quietly support these staff members - like Gerry Pennells and the other husbands and wives and families - thank you for your support.

Parents - you deserve a vote of thanks too - you dared to dream the opportunities your sons and daughters could have at Brentwood and beyond. Thank you for your vision and your support.

Robert Adams, celebrated Canadian teacher and lecturer, said that the mark of a good teacher was one who

- masters the subject
- presents in an interesting way
- then gets the students to the point where they can go on without you.

I think this describes the essence of teaching at Brentwood. I hasten to say, however, it's all very well for Messrs. Prowse, Cooper and Queen to get their students to leave - I'm just not sure about the rest of us when you leave!

Grads - this is your day - we wish you well in your future and hope you will stay in touch with your school.

Don't be afraid to dream for your dreaming will be the catalyst of change. When I look to your young leaders, I feel confident in our future.

To the rest of the students - have a good summer and come back rested and invigorated to accept Brentwood's challenges next year.

My advice to the staff - you'd better get some rest too!

Thank you."

## THE BRENTWOOD MILLENNIUM TRAIL: Live your life as though everything is a miracle.

More than two hundred years ago, the Romantic poet William Wordsworth lamented that "the world is too much with us. Getting and spending, we lay waste our powers." How many of us in this first year in the new millennium, living as we do in our material world, would agree with him? How much getting and spending have you done this past month? When did you last take time to look in wonder at the universe? When did you last stop to care for your soul?

Soul. Some people feel uncomfortable with that word. Do you? Whatever you may or may not believe in a purely religious sense about how we arrived here is not my concern. My concern, in a much broader sense, is for our spiritual journey, as individuals and as a community. Like Wordsworth, I sense that all too often we lay waste our powers. The experience of the soul or the spirit, however, reaches beyond the mind, beyond the body, beyond our material world. The soul connects us in a mysterious and mystical way to something much greater. Albert Einstein, possibly the greatest scientist of all time and a deeply spiritual man, never stopped marvelling at the mysteries of the universe:

"There are two ways to live your life," Einstein said. "One is as though nothing is a miracle. The other is to live your life as though everything is a miracle."

Last term, I read you parts of a letter from Richard Dubois-Phillips, one of the first boys to attend Brentwood College when it was founded in 1923. In his letter, Mr. Dubois-Phillips, who is now 92 years old, recalls how the boys of the old school, though few in number, took up the enormous challenge of building a chapel, stone by stone, timber by timber, month by month, year by year. It was the only building to survive the devastating fire of 1947.

The Brentwood Heritage Chapel still stands as sentinel across on Brentwood Bay. And it has been said, in consequence, that we have no spiritual core here on this campus at Mill Bay. But we are heirs to a remarkably beautiful stretch of shoreline. We have ocean and creek, fields and forest. We have the daily spectacle of the play of light and wind, and yes, even of rain, on distant mountains and on tidal waters. This is our inheritance, and we are all, each one of us, stewards of this land. What heritage will we pass on, de manu in manum, to the generations who follow us?

I want you to imagine a path - part bark mulch, part boardwalk, part stone - winding through our campus from creek to estuary, from field to shore. Imagine a trail for running or walking, with places to rest, for friends, or in solitude, in conversation or in silence. Imagine contributing some of your time and your energy to the building of a Brentwood Millennium Trail, stone by stone, timber by timber, month by month, year by year. At times, the path will be easy to build and to travel, flat and wide. At others, the slope will be steep, the way narrow, the construction fraught with difficulty. We choose to build the Millennium Trail, however, not because it will be easy, but because it will be hard. And in your time at Brentwood, as a student, it will not be finished. I expect it will take us seven years to complete. This, too, is part of the challenge: to begin work with no immediate expectation of reward. This, too, is part of the spiritual journey.

The Millennium Trail will be our chapel, a place for contemplation and renewal, for fellowship and forgiveness, for joy and for wonder at the miracle of life. "In undertaking a spiritual life," Jack Kornfield tells us, "what matters is simple. We must make certain our path is connected with our heart." I hope you will connect in your heart to the building of the Millennium Trail. I hope you will return in years to come as pathfinders for your children and your grandchildren. I hope you will show them where the eagles perch and the herons stand. I hope you will watch the sun rising above Mount Baker and turning the waves golden. And I hope that having lived part of your youth on this beautiful campus, you will not lay waste your adult powers merely in getting and spending. Our aspirations are our possibilities, and we become what we repeatedly do.

Let your part in building the Millennium Trail become a metaphor for your life's spiritual journey. Seek, explore and you will discover the possibilities within yourself and within this miraculous universe. And, as you journey, remember the words of T.S. Eliot: We shall not cease from exploration. And the end of all our exploring will be to arrive where we started and know the place - (know ourselves) - for the first time.

Andrea M. Pennells, Head of School, January 11, 2001

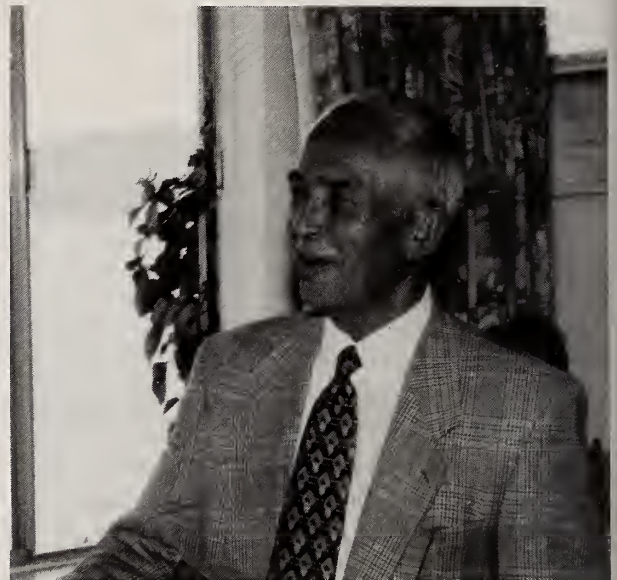

## A DEDICATION

If you were able to join us for the final Invitation to Music conducted by Robert Cooper, you witnessed the heartwarming outpouring of affection and admiration for our incomparable Director of Music. For the last twenty-eight years, Bob has inspired generations of Brentwood's musicians, including internationally renowned Canadian tenor, Ben Butterfield. From the first bars of melody from the junior band, to the celestial heights of our concert choir, our maestro has engaged novice to virtuoso, from Chopin to Rachmaninov. Musical theatre, vocal solo, choir, concert band, piano, strings, church organ, professional orchestra: Bob has covered the musical spectrum with an eclectic and ambitious repertoire, conducted in his own inimitable style. His passion for excellence is evident in every note. Racing driver, raconteur and connoisseur, Bob will set aside his conductor's baton till the gala opening concert for the T. Gil Bunch Theatre. Arriverderci, maestro nostro!

Who can imagine Whittall House without JLQ? Joining the faculty in 1969, John Queen has served as Housemaster of Whittall since 1971. He may well be the longest serving Housemaster in Canada. Beyond the Whittall halls, John was the founding chair and mastermind of the Brentwood Regatta, a competition he nurtured from modest beginnings to the internationally prestigious event it has become. On the water, John coached the Senior Boys' Lightweight crews for almost three decades; Blair Horn, stroke of JLQ's 1977 Lightweight crew, went on to stroke the Canadian Olympic Gold Medal 8 in Los Angeles in 1984. In 1977, Rowing Canada recognized JLQ's outstanding achievements by awarding him the Canada Centennial Medal for coaches who have the equivalent standing as Olympic rowers. Housemaster, coach, Regatta Chair, teacher of physics, clockmaker extraordinaire, John is Brentwood's Mr. Chips. He has served us all his days, as no other.

Joining the teacher staff in 1966, Nick is an illustrious Brentwood pioneer. Over the decades, in addition to being a master teacher of history and English, Nick has served as Housemaster of Ellis, Senior Academic Advisor and Director of Academic Counselling Services, coach of the 1st XV and Colts rugby (and of curling!), Editor of the Brentonian newsletter, Coordinator of Alumni Affairs, and faculty member of the Search Committee for the Head of School. As a fitting culmination to his extraordinary career, Nick was named Senior Master this past year. In 1998, his exceptional contribution to Brentwood college, highlighted by his outstanding academic leadership, was recognised by the rarely presented Hugh R. Stephen Award. Nick is a Brentwood icon, a true guardian of the flame. Wade Davis described him on national television not only as a master teacher, but as a dreamweaver. *De Manu in Manum*, Nick will pass the torch to all members of the faculty on June 30. It will be a landmark in the history of Brentwood College.

## ACADEMIC FACULTY

Ms. Beeston, quick off the mark.

## Tim Van Vliet

After graduating from Brentwood College and the University of Victoria, Tim spent a year with us teaching Physical Education and coaching rugby. A representative rugby player himself, Tim continued to play for the Island rep team, the Crimson Tide, and has aspirations to play for Canada. Though technically on a part-time programme, Tim worked overtime, covering classes and putting in extra time with the students in Rogers House, on the sports fields and in the gym.

Next year he will take his remarkable talents and drive into the public school sector as he will be substitute teaching in the local area. We hope to see him often and there is a very good chance he will be working with us again. We congratulate him on his marriage this summer to the lovely Jennifer.

## Sarah Beeston and Gregor Klenz

We describe Sarah and Gregor together because they were only recently married. Sarah joined us after pursuing post-graduate studies at St. Andrew's University in Scotland and earning her teaching certification from the University of Victoria. She brought tremendous energy and intellect to the classroom, teaching Social Studies, Spanish and International Relations. Sarah also assisted with our debating programme and quickly became a respected and popular teacher. Gregor was born in Germany but educated in Canada, completing his teaching certification at the University of Victoria. Teaching French and assisting with the Student Activities Committee, he showed impressive linguistic skills and adapted quickly to the demands of Brentwood. We offer Sarah and Gregor our warm congratulations on their marriage and we look forward to working with them again next year.

## Cheryl Wohl

Cheryl has a Masters in neuro-physiology from the University of Alberta, but she was working in Victoria before coming to Brentwood in April. She taught Math and Physics, while serving as an assistant in Alexandra House. Cheryl quickly became a seasoned professional at the school and involved herself in many areas of school life. Her musical ability was amply demonstrated in the Evening of Music, when she played the trumpet for the Jazz Band and the Concert Band. Having earned her spurs, Cheryl will be more involved in the House next year and will be on a fuller academic schedule.

## Andy and Elizabeth Rodford

Born in New Brunswick, Andy spent his last fifteen years in Ontario, prior to coming to Brentwood. He has degrees in biology, geography and education, and for six years was the Director of an outdoor centre and summer camp for children in Ontario, before joining Albert College as the Director of Admissions. Andy is a sports enthusiast with a passion for rowing and has participated in coaching at the competitive level. His bouyant spirit and energy have made our campus a more lively place. Thorough and conscientious, he has made it his business to know every person in the School. He is there at the entrance to greet the students and staff each morning. Working with his wife Elizabeth in the Admissions office, he runs an efficient operation. The fruits of their labour are the quality students enrolled in the School for next year.

## VALETE

### **Kairn Ritchie**

Kairn leaves us after teaching for one year in French and Drama. Having grown up in British Columbia, she graduated from the University of Victoria and travelled in Europe before joining us. Her expertise in theatre was evident in her inspirational and imaginative teaching of drama, and she approached all of her teaching with a high degree of professionalism. Kairn is undecided about her future career plans but intends to spend the summer in Guatemala. We wish her a wonderful journey.

### **Brian Tattam**

Brian studied Art and Design at Nova Scotia College and took over the Photography programme. A local product, he has a passion for his craft which was picked up by his students and showed in a remarkable body of wonderful photographs this year. He leaves us to continue to further his schooling in Photography. We wish him all the best in the future.

### **Crystal Harvey**

A Brentwood College graduate, Crystal came “home” to teaching Geography, Earth Science and Rowing. She was also an assistant house parent in Mackenzie House. Full of energy and with a strong work ethic, Crystal took on a heavy course load in her first year of teaching and earned the admiration of her peers. She was also very successful in her coaching of the junior rowing crews. She will be missed but is not going too far away. Crystal will be teaching at Crofton House School next year. We wish her well.

### **John J. Atterbury**

J.J. has been teaching for four years in the Social Studies department after graduating from the University of Victoria. J.J. also took on the senior soccer coaching, and his teams showed his high degree of professionalism. An excellent colleague and very popular teacher, J.J. will be sorely missed. He moves on to pursue his career in soccer coaching, having been accepted into the National Coaching Institute for next year. No doubt he will show up also as a representative soccer player again. We offer him our congratulations and sincerely hope that he will return to us in the near future.

Tom, Rob, Anna and Connor are happy "bumps on a log".

Carina has spotted the troll on the bridge.

## A YEAR IN SPEECH and DEBATE

This year was an incredible year for Speech and Debate. At the Newman FISA Tournament Adam Schneider placed 4th in the Senior category and Sandi and Ameer came 10th out of 35 teams. Nick McLean, Sarah Mahoney and Adam Schneider competed in the International Independent Schools' Public Speaking Championships in Toronto. Sarah moved to the Finals for Dramatic Monologue, and Nick narrowly missed the Finals.

After Toronto, it was on to Ravenhurst where ,

Adam Schneider and Ryan Gallagher placed 3rd as a team, and Adam came 4th individually.

Next it was the Cowichan Speech Arts Festival. Adam received the "Most Promising Speaker", Intermediate, and was awarded \$100.

Not long after, we went to the Island Championships, and Adam Schneider qualified to go to Castlegar, BC for the Provincials. At the Provincials, Adam and his partner Nick Melling from St. Michael's were the top team in the Province.

Adam placed 2nd individually in the Province.

Setting off for Spring Break, seven students decided to rendezvous in New York for some Model UN action. The Grenadian delegation was made up of our grade 12s, our mentors (Rosie Brown, Nick McLean and Matt Foulger), the inspirational grade 11s (Nick Bester and Josh Fishman), and the power pack of grade 10s (Meshach Heenatigala, Ryan Gallagher, Adam Schneider, and Ryan Van Haren).

The last event of the year, the Hector McIntosh Public Speaking tournament, was a great success. Katie Pintye came first in the Senior category, winning a \$500 Scholarship by describing the indestructible nature of "Twinkies", while Adam won the Junior category describing Compulsive Shopping Syndrome.

Finally, the team would like to thank Ms. Beeston and Mr. MacLean for their support over the great year.

Thanks!

Adam Schneider

## ACADEMIC COLOURS: HONOURS STUDENTS

**JUNIOR ACADEMIC COLOURS PIN** is awarded to an Honours student in Grade 8 and Grade 9 carrying a superior academic average, and displaying a sound academic attitude.

### GRADE EIGHT:

Jacqueline Brown	Nicholle Charette	Samantha Choi	Marlee Hahn
Daniel MacAlpine	Madeleine McPherson	Thomas O'Malley	Erin O'Shea
Stephen Pointon	Lisa Small	Madura Sornarajah	Sarah Williams

### GRADE NINE:

Derek Candy	Antonio Chen	Mariko Constable	Adrian Corscadden
Laura McCarthy	Cailen O'Brien	Grant Schneider	Katherine Toews
Kate West	Jeffrey Yu		

**INTERMEDIATE ACADEMIC COLOURS PIN** is awarded to an Honours student in Grade 10 and Grade 11 carrying a superior academic average, and displaying a sound academic attitude.

### GRADE TEN:

Bryan Baker	Christopher Branch	Barrett Briske	Laura Bungarten
Robyn Burrows	Peter Dobson	Michelle Furbacher	Ryan Gallagher
Gillian Gregory	Meshach Heenatigala	Andrew Higginson	Thomas James
Caroline Kenning	Kyle Lang	Julia Martin	Tom Martin
Siobhan McPherson	Christa Morrison	Kelsey Norlund	Monica Perez
Charlotte Philippson	Jennifer Roberts	Kennedy Saville	Sonya Schaap
Adam Schneider	Cassidy Shore	Bo Zulonas	

### GRADE ELEVEN:

Katrina Baker	Wilson Barker	Caitlin Behm	Aidan Benson
Nicholas Bester	Anna Boyar	Michael Brown	Michael Brubaker
Renee Chan	Cameron Choi	Kevin Chou	Alexandra Cocks
Anna Faris	Bryce Farrar	Antonina Ferguson-Garm	Joshua Ghyselincks
Amanda Hahn	Alexandra Hill	Lyssa Kayra	Kristal Larsen
Lindsey Lerch	Katie Lin	Kristen Mallory	Charlotte Mills
Virginia Mills	Vanessa Morcom	Artem Nekrassov	Daniel O'Shea
Oliver Peacock	Taren Phillips	Steven Pierce	Stuart Sinclair
Anna Uno	Alanna Vogt	Katrina Wechselberger	Vincent Yip
Erica Zacharias			

**SENIOR ACADEMIC COLOURS PIN** is awarded to a Honours student in Grade 12 carrying a superior academic average, and displaying a sound academic attitude.

### GRADE TWELVE:

Sam Baker	Matt Baker	Amee Barber	Samantha Baxter
Amy Bensted	Rose-Anne Brown	James Deck	David Flynn
Jenny Fok	Matt Foulger	Agatha French	Jorde Goethals
Ian Goshko	Christina Hall	Stephen Hodgson	Malcolm Howard
Robyn Johnston	Damian Kayra	Christopher Kloosterman	Natalie Langdon-Wilkins
Carina Lentsch	Lindsay MacKenzie	Sarah Mahoney	Nicholas Maytom
Tiffany McBride	Nicholas McLean	Haley Mousseau	Andrew Pennells
Chantal Plomb	David Reichert	Jonathan Rhodes	Mark Sloan
David Small	Jared Steingard	Robert Weedon	Derek Woods
Justin Woodward	Shuntaro Yamagishi		

# A WAY OF LIFE

Alysha signs in for breakfast with Sandi on duty.

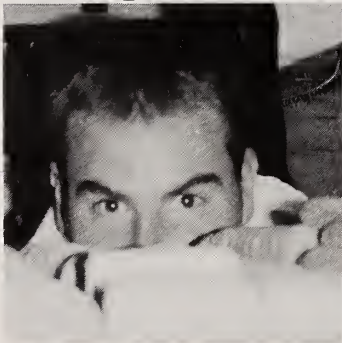

Laundry day for Alex.

Lisa's bright smile lights up a dull day.

Fruit and boiled eggs for Samantha and Lisa.

(above) Dave eyes cookie break.

(right) Elevens hard at work in social studies class.

Amy in a 'study' block.

Rowing - a fine art?

Cassidy sculpts on fine arts afternoons.

Christina gets help from librarian, Mrs. Mais.

Evening cookie break catches Andrew and Jenny trying to elude the cookie Nazi.

(above) Chantal looks as if she is enjoying prep.

# **WANDERINGS**

Cradled in the long bough of the maple I sit here peacefully  
Until rocked by the rough breeze  
Which tosses and turns me like a rag doll.

My colour changes as fall creeps upon us  
I turn ruby, chestnut and orange  
And I increasingly feel more frail and feeble, lonely.

When finally my grip loosens and I fall from my branch, my home  
And slowly I float down toward the gentle Earth below  
Making little sound except for the whisper of air surrounding me.

I delicately touch the ground like a dove perching on a limb  
Where I lie down for a peaceful nap and hope to sprout again  
I hope to become a tree and develop leaves someday.

Those leaves will grow up and live a great life.  
They will stand like towering skyscrapers.  
Everyone will appreciate them for the beauty that they have.

So now I spread my wings and root myself into the ground  
And start the never-ending cycle another time around.

Nicholle Charette

## TEN CENTS

In my wanderings, I have seen all that is and all that is not  
I have seen the young grow old and the old grow feeble and the feeble slip away.

I have felt the burn of acceptance and the comfort of contempt  
I have felt the lash of tongue and the pelt of stones  
I have felt the faith of the lonely and the loss of the sacred.

In my wanderings, I have seen the nothing that is everything in the everywhere  
I have seen monarchs on parade keeping prophets on payroll.

In the cold and dark, the things will play.  
In the warmth of the noonday sun they shudder.  
In the open of fields they will rejoice and carry the tune.  
In the wild, the things will dance the dance of a thousand evenings.  
In the city they shall crumble, for nothing can live without.

In my wanderings, I have seen the machine propagate and spread cancerous.  
I have seen many succumb to be splendidous.

To think as one would, is to be free  
To think as one should, is to wear shackles  
To think as one needs, is to stop living  
To think as one who has never thought before, is to be born anew.

In my wanderings, I have seen tin roof angels sing the song of those long forgotten  
I have seen Mohammed in rags, screaming to the false messiah.

One unshaped block can move the world.  
One thought can create an Eden.  
One idea can kill millions.  
One life is worth ten cents of gas on the American market.

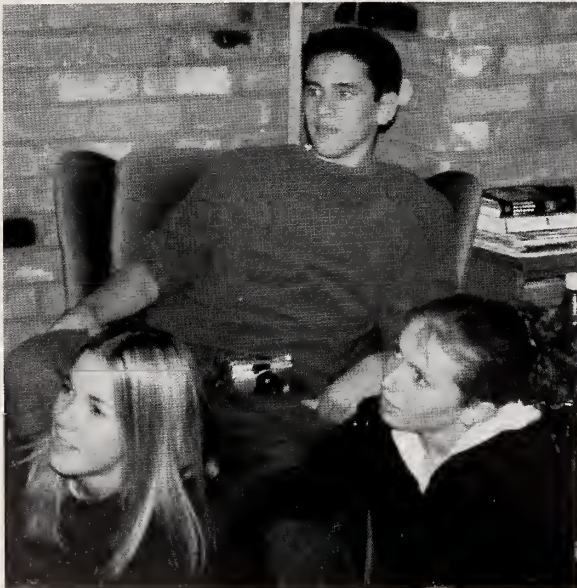

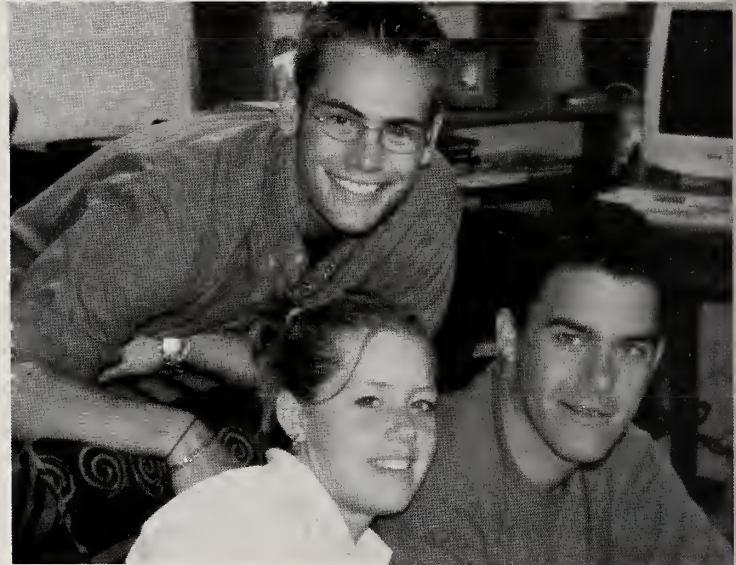

Vanessa Morcom

# SPECIAL AWARDS PRESENTATION

*MR. GARVEY will describe the nature of the following awards, announce the winners, and ask MR. ROBERT COOPER to make the student presentations.*

**HOGAN MEMORIAL SHIELD** ~ For a Grade 8 student whose citizenship is unquestionable and whose leadership potential is couched within a lively and positive personality.

**WINNERS:** Thomas O'Malley Madeleine McPherson  
**Runners-Up:** Tonia Medina Stephen Pointon

**DAVIS AWARD** ~ For a Grade 9 student whose impressive academic effort is complemented by responsible citizenship and a strong co-curricular contribution.

**WINNERS:** Adrian Corscadden Sarah McShane  
**Runners-Up:** Mariko Constable Derek Candy

**BRENTWOOD TROPHY** ~ For a Grade 10 student with an outstanding degree of selflessness indicated by a strong desire to serve the community and the school as a whole.

**WINNERS:** Barrett Briske William Pickles  
**Runners-Up:** Michelle Furbacher Adam Schneider

**MACKENZIE AWARD** ~ For the superior academic student of the Junior School.

**WINNER:** Kelsey Norlund  
**Runners-Up:** Adam Schneider Laura Bungarten Tom Martin

**PAUL LOVE  
MEMORIAL AWARD**  
*(Scholarship: a krugerrand  
from South Africa)*

~ For a Grade 11 student whose creative energy and individuality are underpinned by a strong sense of community. Given by his parents, Tom and Shayna, in loving memory of their son Paul, a spontaneous free spirit, whose good nature and lively humour brightened the lives of his family and friends.

**WINNER:** Katie Lin  
**Runners-Up:** Charles Dordevich Robin McDaniel

**MICHAEL IPATOWICZ  
MEMORIAL AWARD**

~ For a graduate who has been at Brentwood in Grades 10, 11, and 12, and who carries a courageous spirit of adventure through a wide range of interests and activities. He or she is an individual who combines a strong self-belief with a touch of daring while striving for perfection. The rubric is captured in the phrase, "Believe in yourself."

**WINNERS:** Matthew Baker Amelia Payne  
**Runners-Up:** Charlie Ambrose Evangeline Mills

## **CALLIN FAMILY AWARD**

- ~ For a senior student in who is a loyal, enthusiastic, buoyant citizen, caring of the community and keen to do well academically, athletically and artistically.

### **WINNERS:**

**Hans Harn**

**Adam Turnbull**

Runners-Up:

Jamie Allard

Kari Hergott

## **KATHLEEN BRYAN MEMORIAL AWARD**

*(Scholarship)*

- ~ For a female graduate who, in her response to Brentwood, ultimately demonstrated a respect for the feeling that close meaningful personal relationships formed the basis for growth and personal development through our programme. Given by Katherine Bryan, Class of 1982, in loving memory of her mother, Kathleen.

### **WINNERS:**

**Amy Bensted**

**Marja-Lisa Paulson**

Runners-Up:

Samantha Baxter

Sarah Mahoney

Agatha French

Emma Sarbit

**MR. GARVEY** will describe the nature of the following awards, announce the winners, and ask **MRS. LYNN EYTON** to make the student presentations.

## **THE EYTON FAMILY AWARD ~** *(Scholarship)*

- For the Grade 11 student who shows integrity, initiative and an appreciation for the opportunities offered by the Brentwood College tri-partite programme.

*Established by Lynn Eyton,  
Chairman of the Board  
of Governors 1996-2001*

### **WINNER:**

**Stuart Sinclair**

Runners-Up:

Michael Brown Kristal Larsen Aidan Benson

## **KEN CREER MEMORIAL AWARD**

*(Scholarship)*

- ~ For the graduate who best combines love of sport, fair play and support of teammates. Given by Dr. Kenna Creer Manos in memory of her father, Ken Creer, the first student to be officially enrolled at Brentwood College in 1923.

### **WINNERS:**

**Morgan Baylis**

**Tara Medina**

Runners-Up:

Connor Grimes

James Macintosh

## **GRADUATES AWARD** *(Scholarship)*

- ~ For a graduate who is held in high regard by the other members of the senior class, not so much for any outstanding accomplishments though there may be many, but rather for the quiet but courageous manner in which he or she has reached out and embraced wholeheartedly any and every challenge.

### **WINNER:**

**Jorde Goethals**

Runner-Up:

Sara Skoretz

## PEYTON TROPHY

~ For an outstanding citizen in recognition of a strong contribution to both Athletics and Fine Arts.

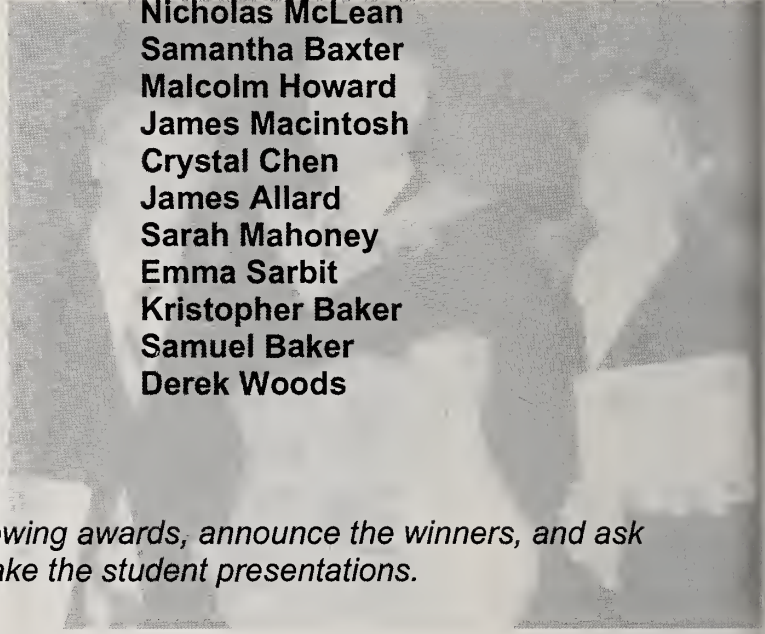

**WINNER:**  
Runner-Up:

**Robyn Johnston**  
Jorde Goethals

## BRENTONIAN SERVICE AWARDS

~ For members of the graduating class who are considered by the Faculty and the Head of School, either to have given some outstanding service to the school, or to have exemplified, through their personal growth at Brentwood, such qualities as human kindness or tenacity in the face of challenge, without seeking recognition or reward.

### WINNERS:

**Justin Woodward**  
**Nicholas McLean**  
**Samantha Baxter**  
**Malcolm Howard**  
**James Macintosh**  
**Crystal Chen**  
**James Allard**  
**Sarah Mahoney**  
**Emma Sarbit**  
**Kristopher Baker**  
**Samuel Baker**  
**Derek Woods**

***MR. GARVEY** will describe the nature of the following awards, announce the winners, and ask **MR. NICHOLAS PROWSE** to make the student presentations.*

## BRUCE M. HICKS PUBLIC SERVICE AWARD

~ For a student who, through his or her action, has done the most "to ameliorate the conditions of disadvantaged individuals or groups" (Canadian Charter of Rights)

**WINNER:**  
Runner-Up:

**Ian Goshko**  
Chantal Plomb      Privett House Grade 12s

## POWELL CUP

~ For senior citizenship, recognizing a student with an outstanding degree of selflessness indicated by a strong desire to serve the community and the school as a whole.

**WINNERS:**  
Runner-Up:

**Chantal Plomb**      **Mark Sloan**  
Matt Foulger

### THE BRENTONIAN SHIELD

- ~ For the graduate who has done the most to encourage a love of scholarship, through either personal attitude and achievement or assistance to others.

**WINNERS:**

**Shuntaro Yamagishi**

**Agatha French**

Runners-Up:

Matthew Baker

Jonathan Rhodes

- ~ For the student in the graduating class who displays, in addition to scholastic and athletic excellence, stability and strength of character together with a willingness to serve:

**WINNER:**

**Robert Weedon**

Runners-Up:

Malcolm Howard

Amy Bensted

## JLQ's Address to the Students

Good afternoon, students, colleagues, parents, friends and distinguished guests. With your permission, I am going to address my comments to the students - for the last time.

September 2nd, 1941 - a small boy, barely five years old, experienced his first day in school. It took a little less than two hours before he decided that this school nonsense was definitely not for him. He ran away. Some strong parental disapproval ensured his return next day, and now, after sixty years of being in school non-stop, he is about to run away again. Take heart Grade Eight. It really does come to an end eventually.

What is school all about? Ultimately it comes down to the development of character. Over my career, it has been my great privilege to have worked with young people, most of whom have been far more talented than I. I have seen my role, in the classroom, on the water, in the theatre and, most of all, in the House, as one which encouraged all those good qualities which were there in all of them. I have tried to impress on them the realisation that, with responsibility goes accountability, and they have rarely let me down. At the start of each year, I have told my prefects how easy it is to be popular, if that is what they really want, but, if they want true respect, then they must be prepared to stand up and be counted. Making the right decision is not always easy. Friendships can be put to the test in the process, but, life is one endless series of decisions and every one of them is going to affect others. In the end, a person has to live with his own conscience and, what others think is not the major criterion. Make your decisions with thoughtfulness therefore.

I have tried to teach my lightweight crews, after months of intense training, to handle success with modesty and defeat with grace and, in doing so, to put the result, whatever it was, into real perspective. I have watched my students in the classroom experience the joy of discovering that Isaac Newton was not the only person who could understand physics - they could too and, in fact, Mr. Newton was not always right anyway! Some of them have gone on to become very eminent scientists in their own right, whose work Mr. Newton, unlike them, would not have been able to understand. In Whittall House, I have tried to stress the critical importance of supportiveness within a structure that is tight but fair. The boy who will not stand by when he sees another being bullied; the House Captain who is prepared to stand up in a house meeting and chastise his fellows for their inconsiderate behaviours; the boy who recognises the need for immediate action in a given situation, and takes it; the boy who sees a friend starting to lose his moral standards and tries to put a stop to a downward behavioural spiral. These are the ones who demonstrate that strength of character which, although dormant in most of us, often stays that way because we simply

do not have the courage to take that quantum leap and act. Thomas Jefferson said, "In matters of style, swim with the current; in matters of principle, stand like a rock".

All of us feel, at times, that the whole world is against us and we can see no daylight at the end of the tunnel. We must recognise, though, that our troubles are probably trivial compared with those of many others. We are not alone - just lonely. "Alone" is a perception and, like many perceptions, it can be false. So, be courageous. You will surprise and even impress yourself by the outcome. At times you will find yourself in a position where you are damned if you do and damned if you don't. So, be damned and do. Every great achievement in history has started with one simple phrase - "I'll try". You are tomorrow's leaders in a world that is cruelly dismissive of the weak of heart. Start leading here, at Brentwood. Lead yourselves, your friends and your school to where you belong - at the top.

You and your predecessors have provided me with a life of great challenges, great joys and wonderful ongoing friendships. I count myself blessed a thousand times over. I wish the same and more for all of you. *Valete discipuli, magistri et omnes.*

## VALEDICTORY ADDRESS NICK McLEAN, 2001

Honoured Guests, Students and Faculty, Parents and Friends, and Fellow Members of the Graduating Class of 2001.

The most difficult part of a speech like this is always the first sentence.

Oh, that's a relief...

But seriously, it took a pretty long time to come up with that.

I had considered starting this speech with the memorable opening of a Brentwood Valedictorian of a few years back: "I'm a little bit nervous about speaking before all of you today, so I've been drinking heavily for the past several hours". But, of course, that kind of statement would be a disgraceful first sentence for a speech such as this. Hopefully, as the fourth sentence, it'll find the respect it deserves.

In any case, as those who know me well can attest, writing this speech has not been an easy process. In fact, like so many things here at Brentwood, it's been a challenge. But, then again, they say that "Challenges are what make life interesting and overcoming them is what makes life meaningful".

And, by that definition, we've all had a pretty interesting year. Indeed, no one in this class has been a stranger to challenge - whether on the playing field, in the classroom, or on the stage. Sometimes challenge has been thrust upon us, sometimes we have sought it out. But always, the people of this class and this school are able to rise to the challenge - gracious in victory, courteous in defeat. But mostly gracious in victory.

For many of us, deciding to come to Brentwood was one of the hardest choices that we had ever had to make. We are a class pulled together from a dozen countries and a hundred worlds - an array of lives as diverse as one could hope to find anywhere. And, in coming here, we left behind our homes, our families and our friends. We left behind the safety of the only worlds that we had ever known.

There is an old saying, "There are many paths to the mountain, but only one view from the peak". And that's how we feel today. We have climbed this mountain that is Brentwood, and now stand together at the summit.

And we've shared an amazing experience.

Today our paths part. There are new challenges now, for all of us - and for all of you. And so we bid farewell. But before we go, I want to say a few words of gratitude and appreciation.

Faculty: Thank you - for your guidance, for your respect and for your friendship. You have had a profound effect on every student here, and we are all wiser, and richer for your efforts. We owe you more than we can express.

And Parents: To you we owe perhaps more than we can even truly understand. For it has been through your constant support, undying belief and unconditional love that we have been able to achieve whatever success you have seen today.

I cannot suppose that a few minutes of my words, at the end of a long day, will even begin to serve as an illustration of the feelings of myself or my classmates towards all of you, and towards this institution, Brentwood. The poet Charles Simic once said that, "Poetry is an orphan of silence. The words never quite equal the experience behind them".

And, indeed, when the Class of 2001 looks back upon this day, we're not going to remember the speeches that were made, or the prizes that were won (well, maybe the History Award). But we shall always remember how we felt today, as we bade farewell to the people who became our friends, and to the school that became our home.

It is one of the great ironies of Brentwood that, on Speech Day, perhaps the most importance experiences to be had do not require words. For today is, at its heart, a simple day of voiceless remembrance and silent farewells.

Thank you, and good-bye.

**IN APPRECIATION:** Thanks Mom and Dad. Whatever you did, it worked.

**LAST WORDS:** I'm the end result of history. Thousands of generations lived and died to produce my exact, specific parents, whose reason for being, obviously, was to produce me. Now I'm here, and history is vindicated. Just think, Earth was a cloud of dust 4.5 billion years ago... 3 billion years ago, the first bacteria appeared. Then came sea life, dinosaurs, birds, mammals, and, finally, a million years ago, man. Now, there's me...the acme of evolution. When you look at me, it's clear that my genes contain the evolutionary perfection of earthly DNA.

**SPENCER REID**

Ellis House, Prefect, 98-01

**TEAMS/FINE ARTS:** Captain of 1st XI soccer team, 3 years of 1st XV Rugby, sculptor and photographer

**MEMORIES:** Hawaii with Jackelson phizzle and the team. BUCKETS! At Justin's house. My friends. All my roommates: Briskisack, Skinny, Nizzle, and of course Chief Big Smoke. And a gorgeous little 'thang' from Chile!

**FUTURE:** Take a giant piece of the pie.

**IN APPRECIATION:** Thanks to those bearers of knowledge and of course, my loving parents for funding this whole operation.

**LAST WORDS:** Listen, think big and you will succeed...don't let anyone tell you otherwise, Kapeesh! And if you fall, you'd better pick yourself up...so keep your chin up kid and keep it REAL. Oh ya, Boys, I recommend women of Spanish descent...Peace!

**ANIKA RENSHAW**

Gwynneth House Asst. House Captain 97-01

# ALEX HOUSE MEMORIES

Our Closing Ceremonies are over now. Another year has ended. I've said my goodbyes and wished all my departing girls a safe, happy summer, including four grads whose exams have also finished. The house is silent as the grads who are still here have gone out for dinner with their parents. After the hectic frenzy of the past week, I am now sitting motionless in my living room, allowing a flood of emotions and thoughts to wash over me: memories, mental snapshots of the year, funny, happy and sad. When these have filtered to the bottom of my mind, I try to make sense of it all. By far the most overwhelming, prominent feeling I find is overpowering gratitude for the privilege of sharing the lives of such wonderful young people, these girls who are essentially my daughters for a large part of every year. Thanks to all of you; once again, it has been terrific! Your House Captain shared the house write-up with me five years ago when she was part of her memorable Grade 8 class. It is fitting that she should do that again now as she graduates.

Eileen Mais

*Since the first day in grade 8, quiet and shy, I knew this place would be great, oh my!  
Bells every hour, sign-in every two; my crazy roommates...how would I make it through?  
But the time went fast, it started to get better (even though the weather got wetter and wetter).  
Grade 9 soon came, we started to get older; finally, every subject got a separate folder.  
That went fast too, then grade 10 came, bringing with it a flood of new names.  
The grade 10s got tight, bonds started to grow; meanwhile, we finally got a day of snow!  
When we grew to grade 11s, it came as such a fright; we finally learned how to ask for a late night.  
To rule the house - we were almost there, but saying 'bye to Ms. Walker caused us despair.  
We made it through, and as grade 12s, we're proud and (Mrs. Mais will vouch) we're very loud!  
Now we take care of the little ones, quiet and shy, who will grow up to be wonderful, oh my!*

*The crazy grade 8s: Sarah, Maggie, Marg, Mad, Nicholle, Jane, Tonia, Erin; they're all rad.  
Then the grade 9s, a likeable slate: Laura, Mariko, Katie, Brettlyn, Alex and Jess, Celina, Brooke, Alicia, Sarah, Jess and Kate.  
Now the grade 10s are the halfway line: Min, Alex, Michelle, Robyn, Heather and Anna, Shannon, Char, Siobhan, Leilani, Christa, Barrett and Caroline.  
On to the grade 11s - next year is yours; rule the house well and like us be hardcore: Cali, Caitlin, Louise, Kate, Mel, Nessa and Lottie, Ginny, Jessi, Lau, Uno, Alex, Toni and Keltie.*

*Finally the grade 12s, our time is over. I guess a goodbye is now in order.  
To Sam and Marja who represent dorm 2-6, we all enjoyed their Gangsta' Mix.  
To Tina, Tara and Anna - the famous 3Ts - to sit through prep quietly was impossibility.  
To Rachel and Chantal - cousins and friends - their dreams are to paint, then travel the world's end.  
To Amelia who was always in heaven, with her rainbow-coloured room obsession.  
To Robyn and Emma - always busy people - between early morning rows and late night musical.  
To Jen, who's always singing "Sunshine Lollipop", she has another spare so wake her not!  
To Sara, who we wished we'd seen more of, off with Nick at Shawnigan she always was.  
To Evie who laughs twenty-four seven, her artwork is good enough to be placed in heaven.  
To Angi and Haley, quite the pair, between Radiohead and Dixie Chicks who could compare.  
To Amy, my roommate without whom I'd have died, your dancing and support kept me alive.  
So, finally goodbye, and to Mrs. Mais: Thank you for putting up with 5 years of craze!!*

## *Recipe for a Gwynneth House Upside Down Queen Layer Cake*

Take one large empty house in early September and, first, add two Houseparents. Make sure they are willing but inexperienced in residential life (realize that one of these ingredients may change frequently!). Then take two girls from Alex who have experience and are willing to help. Next, add three returning Gwynneth Twelves, and five new ones to freshen the mix. This is your topping so handle with care.

Place Tiffany, the movie queen, next to Meghan, the sewing queen, and Danielle, the phone queen, next to Jenny, the camera queen. When these are in place, put Kim, the running queen, next to Carina, the music queen. Carefully arrange Flora, the queen of room disaster, next to Laura, the queen of recycling. For the final decoration put Gabriela, the beauty queen and Anika, queen of gentleness.

When this top layer is set, start the princess layers and begin with the Elevens.

It is important at this point in the process to have some variety. To add laughter, place Robin in the hall with Katie P. to shout. To include kindness, put in a Brooke, and toss in a Kristen. This recipe will not work unless you add a Georgia to spice things up and a Bekkie to add sweetness and teddy bears. At this point, to ensure decoration and flair, add CTB. Noodles are needed now, so put in an Ann, who will keep the whole thing cooking. Add an Alysha and an Alex now for singing and entertainment. Throw in a dash of daring Darcy and a hint of sorry Yuri, and when the mixture starts to gel, sprinkle a little Taren and Bronwyn for more generosity. No recipe is complete without serious management, here the essential ingredient is Anna F.

At this point, we need to knead the mixture and, to get it firm but elastic, add Anna B. She will try to give you birthday cake, but continue with the recipe as follows: After tasting (at this point you will find the mixture lacks seasoning), send to Mack and borrow (steal) a Sarah. Now the Eleven layer is ready. Hold your breath and place in the fridge for it to stabilize.

While you are waiting, prepare the Tens.

Get Melissa out of the hospital and blend her with dancing Kapri. Meanwhile, dry out Monica and add saucy Thai dressing with Nan. Some Chinese five spices in the form of Fanny might help at this point. Peel Liz away from Tom and add the zest of Leigh-Anne. Blend with the willingness of Bailey and the athleticism of Lindsey and stir the mix again. Finally, add a "toot" of Anna S. and let the whole layer sizzle.

For the last layer, some running around is required. Go to the phone booth and pick out an Alex. Try to get Claire into bed, any bed, and mix with a juicy Djuna. Add a measure of candid Cindy and then chop in with a hockey stick Casey and Alison. For a missing ingredient, at any House meeting find a sugar plum that is Meagan. Last, try to find the always-unavailable Kelsey to scour the pan. Assemble the layers and invert the cake.

Bake at 17 degrees in the winter, 23 in the summer from September to June. Turn the whole cake out on the campus, and what have you got?

### **One great confection of a House.**

Thanks to everyone for this wonderful recipe. Let's bake another one next year!

Mels  
P.S. My thanks to my three assistants, Lindsay, Lorraine and Casey, and my duty staff.

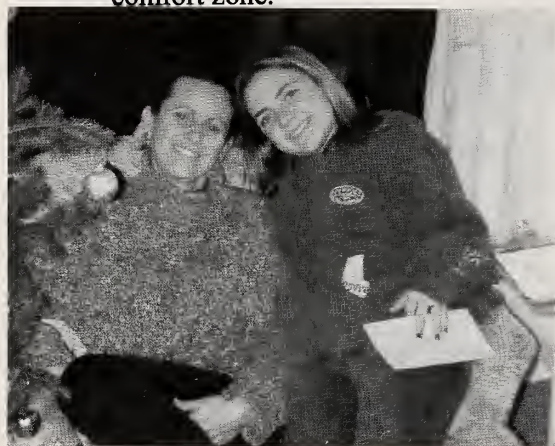

# GWYNNETH HOUSE

Best pals Lauren and Ashley.

## MACKENZIE HOUSE A YEAR OF CHANGE

**“Change - alteration/exchange of one thing for another/a new occupation or fresh outlook/the passing from one form, phase, state to another.”**

This is the New Webster’s Dictionary and Thesaurus’ definition of the word ‘change’. This definition would also sum up rather handily this year in Mackenzie House.

On this quiet, calm Sunday afternoon in June, prior to exams, I am able to reflect on this “year of change”. This year has been a learning experience for all of the inhabitants of Mack House. New staff and new girls, both boarders and day students alike, have brought a fresh perspective to the House.

I knew that my role as a Houseparent would be a way of life, not merely a job, but was I truly prepared for the life-style transformation that

awaited me? What a way of life it has been! Between money chits, travel arrangements, fire alarms, flooded basements, surviving harrowing number one inspections, administering Tylenol, mastering the digital, metric thermometer and offering advice to the lovelorn, I have acquired a much clearer appreciation for what this role is all about.

A sense of community is never a simple thing to develop or maintain. It requires a constant effort and a great amount of patience and perseverance. This year we have all benefited from the willingness of the vast majority of the House to work hard at establishing a positive and enthusiastic atmosphere. The supportive attitude that makes the work of prefects and house staff alike a pleasure, rather than a duty, was evident at every grade level and was much appreciated.

There has been a great deal to celebrate in Mackenzie House this year. Our girls have excelled academically, on the sports field, in the gym, in the arts and in their contribution to the many other activities that make Brentwood the tremendous school that it is. I am particularly proud of the support and encouragement that they have shown towards each other. This support and encouragement has helped us weather some unsettling and trying times.

We have been fortunate to have had a hard-working duty staff on side with us this year. Many thanks to Mrs. Jackson and Mrs. Khanna; their veteran Mackenzie House experience has proven to be a tremendous help to us all. Ms. Beston has reigned supreme on Thursday evenings!

Mr. Flynn has added the male perspective to the House.

His gruff exterior and persona have softened somewhat (much to the dismay of his hockey players). Thank you ladies for that. Will he still knock 3 times at “put to bed”? Ms. Harvey leaves us to work with the young women of Crofton House. We wish her all the very best. What will she do with herself when she does not have 50 girls to put to bed at night?

Thank you to Aggie, Sarah, Kate, Head of House and Assistant House Captains respectively. I have truly valued their support and know that the other girls in the House have as well.

There is no greater acknowledgement than the many hugs I have received, whether they are from the rookie grade 8s or the seasoned grade 12s. They, to me, are what Mackenzie House is all about.

With love and fond memories, Maggie Flynn

## ELLIS HOUSE

### "THE BEST HOUSE!"

In writing this report, I am reminded of the words of the Spanish writer and Jesuit, Baltasar Gracian who states that "good things, when short, are twice as good". This, of course, would apply to many things, except the bliss of summer vacations.

This year has been an outstanding one for many reasons, not least for the general atmosphere of camaraderie and good humour that has pervaded the halls and dorms. It has been a pleasure getting to know some fine young people and working with them towards the goals they have set. The tone has been a very positive

one and the energy has been tremendous. From a personal standpoint, it has been a very enjoyable year, one of the best I can remember in ten years of Housemastering.

Ellis has had another banner year in inter-house sports, dominating the competition in both boys and girls events to sweep all three trophies. Congratulations to all who ran, tackled, leaped, debated, checkmated and eliminated the opposition this year. To Peter Hackett and Tara Medina, big thank you for all your tireless work as sports captains - great job! To the seniors who are leaving us - my thanks for the leadership

you have provided to the House this year and for the example you have given for the younger grades. Whatever Housemasters say, it is really the modelling of enthusiastic and purposeful seniors that makes an impact on the younger grades and you have provided that in full measure this year. To Shuntaro for all his mentoring and help to so many over the year; to Malcolm for being a tower of strength; to Will for being Will (and remembering everyone's birthday); to Noel for his positive attitude; to James for making us laugh, and...well, I could go on at the risk of ignoring my wise

friend Baltasar. To all the Grade 12s, you have left big shoes to fill and your influence will still be felt in the House for many years to come. My thanks, of course, to the duty team, Messrs. Henry, Cowie and Klensz who have all helped turn what could just be an animal shelter into a stable environment. To my assistant Miles, many thanks for your continuing support and energy. To our wives, Lisa and Anne-Marie, thank you both for putting up with so much and for all you do to make Ellis a warmer and more family-like "home away from home" for the boys.

D. McCarthy

## PRIVETT HOUSE

Every once in a while, an unbelievable grade 12 group comes along, whose effect on the residents and staff in the boarding house is magical. This year's class was just one of those. Led by House Captain, Tony Harris and his duo of assistants, Jamie Allard and Mattt Baker, along with Sports Captain Jamie Macintosh, a quiet and gentle house was established with an efficiency rarely seen in a boarding environment. These young men, aided ably by prefects, Jorde Goethals, David Small, Sam Baker, Ian Goshko, Sean Patterson, Tyler West and Derek Woods, gave comfort to the grade 9s while Brandon Cheng protected the grade 8s, and Alex Adamson guided the grade 10s. Jim Lang supported the grade 11s (and Josh Fishman) and pointed the whole house in the right direction.

We had some fantastic interhouse results, though we did not capture the title. The Privett girls captured the basketball title, the junior boys the soccer title and the senior boys the cross-country title. Our gingerbread house was second at Christmas though there was consensus from many that ours was the best!

At 'the last meeting', following a great time water skiing and swimming at Shawnigan Lake, the grade 11s spoke about their respect and affection for the departing grade 12s. Many of the 12s spoke to the House, highlighting the opportunities at Brentwood, the friendships they had built and the loyalty they had developed for the House. In a year when we graduated seven lifers, the experience of these young men was apparent.

What a wonderful year it has been! As the last of the grade 12s depart for the summer, I marvel at the amazing maturity and leadership these teenagers show in a world that needs it!

# **"JOLLY" ROGERS HOUSE**

The spirit of cooperation and dedication to the community evidenced by the Grade 12 class of Rogers House, 2000-2001, permeated every accomplishment this year. Led by the calm hand of Morgan Baylis, the undying energy of Mark Sloan and the steady guidance of Hans Harn, Rogers continued to excel in every aspect of school life.

In sports, we mastered all manner of races. On land, Brian Gosnell and Ryan Gallagher led in cross-country, while Scott Armstrong, Aidan Benson and Steve Hodgson shone in track and field. On the water, the Jolly Roger raft crewed by Nick Tedeschi and Cailen O'Brien won the in-school competition, while Nick Maytom, David Reichert, Darren Reynolds, Bo Zulonas and David Jameson (among others) won national rowing competitions. Our basketball champions included Christopher Branch, Kevin Chou and Charlie Bendall; rugby fielded Drayton Salkeld, Hiro Okuma, Joe Genest and Tom Kerswell; squash had Jack Lee and Cameron Fraser; soccer had Jack Allpress; golf had Stephen Pointon and Brendon Hall; field hockey was led by Tom Philippson and ice hockey had Kennedy Saville, Marcus Woernle, Stephen Axworthy and Mark Roehlig. In unofficial sports, Rogers has the strongest

skateboarding team with Ian Plant, Eliot May and Noah Stevens.

In arts, Adam Schneider, Liam O'Brien, Boyd Sloan and Andrew Pennells powered the Musical Theatre production of *The Merry Widow*, not to mention choir. The jazz and concert bands could not perform without Mark Walle, Gabriel Mak, Chris Leckenby, Michael Smirl or Jeffery Wu. The paintings and drawings of Andy Chen, Lee-Yen Tseng and David Frampton brighten our walls.

Rogers boasts some of the brightest academic minds in the school including Wil Barker, Stuart Sinclair, Tom Martin, Tony Chen and Grant Schneider. To list all of the students who won scholarships, were commended or whose achievement in academics improved over the course of the year would be to list the entire House.

Of course, the house could not run without indomitable duty staff like Howard Martin, Tony

Medina or Tim Van Vliet and stalwart prefects like David Flynn who helped keep some of the more colourful characters, namely Henry Mackenzie, Rob Sainsbury, Lee McNamee, Cameron Choi, Dan Good, Dan McAlpine, Michael Reichert, Garrett Graeme and Fernando Barrera, in line. Special thanks to Jim Gordon, whose family connections made for a most enjoyable end of year outing, and Matt Leckenby whose assistance in the boathouse helped keep the waterfront running smoothly.

The prestige of Rogers House benefited tremendously from the Rogers Girls. In arts, Kristal Larsen, Alexandra Hill and Kapri Thomas, to name but a few, stole our hearts with stirring performances. In sports, Rachel Kerswell and the junior members of the Jolly Roger crew, Madura Sornarajah and Samantha Choi are champions in their own right. In academics, Katlyn Bellringer, Danielle Blanchard, Carina Lentsch,

Ashley Hall, Tiffany McBride, Angela Murray, Virginia Mills, Charlotte Mills, Lindsey Lerch and Erica Zacharias showed their true colours to be Rogers' orange.

Perhaps the most special thing about the boarding school experience at Brentwood is the special camaraderie that exists between the "brothers" in the House and the "sisters" in the extended House. Though we do not always get along, though we may not always appreciate the talents of others, we can see that everyone contributes to making our House special in some way. There are many accomplishments and efforts that have not been acknowledged on this page, or perhaps even in this book. Every year, each of us will look back and remember something unique, encouraging or impressive about someone in the House. Every year, each of us will look back and be glad to be a part of Rogers House.

## WHITTALL HOUSE

Whittall "The House that JLQ  
Built" - 30 years later.

A truly international flavour has been evident in the House this year. We have a Russian, a Turk, a German, as well as several Asians and Americans. This has all helped to add a touch of colour to the daily humdrum of life in Whittall House and they have all broadened our outlook.

Looking back over what seems a thousand years, I cannot remember one so free of incident and so mature in outlook. Perhaps they all decided to be nice to me in my final year! This is not to suggest that life has been boring, in any sense. How could it be with the likes of Marc, Nick, Frank (when he was awake), Brandon, Sean, Eric and Chris, to mention a few. The strength of approach so evident last year has been continued and built upon. Unquestionably, the absence of any grade 8s in the House has made a huge difference but there has also been a real sense of purpose and unity.

The Grade 9 group has been exceptionally strong in every way. Apart from being, for the most part, quite indecently large, they have also been great participants and wholly supportive. They will definitely be a force in the years ahead.

Grade 10 had its 'characters'! Stefano - 'which sign-in?', Brandon "I think I will row to class this morning", Sean "but... but... but...". A very diverse group, this, with a wide range of real talent.

Grade 11 - studious, serious -minded, committed, are words that come to mind. Some have fallen in love and been temporarily out of commission but most have done some real growing up. The House will be in good hands next year.

The Grade 12s have, as always, been insanely busy. They have handled their final year with energy, good humour and commitment. As prefects, they have brought a

thoroughness and dedication to their roles which will be hard to match. As people, they have shown a degree of caring and compassion beyond their years. Justin, as House Captain, has put this quietly efficient yet immensely strong stamp on the whole and is to be congratulated on his obviously successful reign. To them all I extend my thanks and congratulations.

Mrs. Kelly has survived another year and has been a great calming influence on us all. She brings a thoroughness and caring to her role which makes a huge difference to the tone of the House. My very sincere thanks go to her and to all the duty staff, Mr. Burrows, Mr. MacLean and Mr. Wood. Their contributions have been immeasurable.

Thirty years ago I came into a House that was the closest thing to anarchy anyone would want to experience. By dint of maintaining an entirely obnoxious approach to any and

all who strayed, I finally managed to wear down the antisocial element but, far more importantly, successive prefect bodies have supported this line and, without them, nothing I tried to do would have made any difference.

My experiences in Whittall House would fill a book and, one day, I should write them down. Some were funny, some poignant, some frightening, but what a challenge it has been! I have been enriched by the great people who have come through Whittall House as, indeed, have all. I have enough memories to last more than one lifetime and am truly grateful for them.

My successor, Marius Felix, will, I know, want to build on the foundation already there. This he is more than capable of doing. I wish him every joy and success.

To all the Men of Whittall, past and present, my heartfelt thanks, good wishes and gratitude.

Valete omnes!

# FAWIPE

## A HAPPENING PLACE

The annual FAWIPE (Fine Arts Work In Progress Evening) proved once again that it is possible, in just over an hour, to transform the dining room into an arts, technology and crafts fair - complete with lively demonstrations and active audience participation. Afterward, the audience adjourned downstairs to the auditorium where a full house of parents and community supporters watched teachers guiding the 'baby steps' of the performing artists, aiming already towards the final polished 'giant steps' of the May and June performances. Three short hours after the physical plant transformations began, they were completely reversed - the auditorium was empty of people and atmosphere, the dining room ready for breakfast. A successful event according to parents and well-wishers reports. A blur to the participants. Great fun!

Good sax from Sarah McShane and Chris Branch.

Leaning towards dance are Gabriela Delano-Stephens and Olivia Tso.

Science is a hair-raising experience for Erin O'Shea.

## THE MERRY WIDOW

The big question in September was, could we successfully transfer an operetta from the grand stages of Europe, to the shoebox auditorium of Brentwood? Musically, it would be Mount Everest, but Maestro Cooper had every confidence that it could be done. Ms. Leigh's magical slight of hand with art nouveau elements would do the trick and, having worked with many of the young actors in previous shows, I had a good feeling about how far they could be stretched. So did our choreographer, Ms. Oxtan. And so we began the climb. It has been a wonderful journey of discovery. Every member of that ensemble learned how deep he or she needed to dig to find the stamina and energy to give 125% every night of the run in April. They all had "true grit". The elegant strains of Lehar's melodic score resounded through the hall with, as one critic reported, "polish" and "panache". It was a thrilling tribute to Robert Cooper, in his final musical production.

Edna Widenmaier

The male cast after the show (below)

# LONDON THEATRE TOUR

Each year at Spring Break, staff members Edna Widenmaier and Keith Digby run the London Theatre Tour. This trip aims to give a sense of the variety of offerings in the London theatre world, as well as some experience of the cultural sites in the city and neighbouring towns. Robin McDaniel (grade 11) sends the following report:

Day 1: After a long-delayed flight, we arrived in London and took a walking tour of the city in the dark.

Day 2: The group visited the "Eye of London", a gigantic Ferris wheel on the bank of the Thames which proved to be an excellent way to get our bearings around the city. After many hours of being lost in the tube, we went to St. Paul's Cathedral. At night we saw the musical "Buddy" - the story of Buddy Holly.

Day 3: The group went to the National Gallery, and the area around Trafalgar Square. In the evening, we went to watch the musical "Blood Brothers".

Julie Piazza and Robin McDaniel outside Buckingham Palace

At the Globe Theatre

Day 4: We attended a workshop at the newly reconstructed Globe Theatre, and were directed in an acting class and then performed skits on the stage. A visit to the modern art centre, Tate Gallery followed. In the evening, we all went to see either Les Miserables, Chicago or the Lion King.

Day 5: A bus trip first stopping in Canterbury, then to Leeds Castle (which is in Kent), touring the grounds and the maze. We dined out in Piccadilly Circus - an experience which enabled us to examine the local nightlife with interest!

Day 6: For our last full day, we visited all the major tourist attractions; Buckingham Palace, Westminster Abbey, Big Ben and the Parliament buildings. In our free time we were also very active in trying to see as many sights as possible. At night we saw Andrew Lloyd Webber's "The Beautiful Game". For the remainder of the tour we recovered from the previous six days by sleeping!

Robin McDaniel

# CHARITY WORK DAY

Miguel Ludlow "on the carpet".

Nick Tedeschi, Spencer Reid and Mr. Wynne "on the beach".

Rez Manji "spoons" mulch.

## SPECIAL GUESTS

Internationally renowned painter, Robert Bateman, spoke to the school about his two passions, art and the environment. Works from the Robert Bateman collection were on display.

Robert Bateman is shown here with Head Prefect Matt Foulger, Head of SAC Clayton Johnston and Head of School Andrea Pennells.

The English classes were treated to a reading from the writings of celebrated author Rachel Marley, shown here with her friend from school in Jamaica, librarian Ms. Eileen Mais.

Mr. Fran Morse made his annual presentation from the oldest Brentwood graduate (class of 1923) to the youngest, Sarah Williams and Francisco Lopez.

## BACHMAN TURNS ON OVERDRIVE

The School was delighted to host famous musician and song writer Randy Bachman. Introduced here by Adam Turnbull of the SAC, he played a selection of songs and delivered a powerful message on the dangers of drugs. He is also shown with his daughter Callianne, a gifted vocalist in her first year at Brentwood.

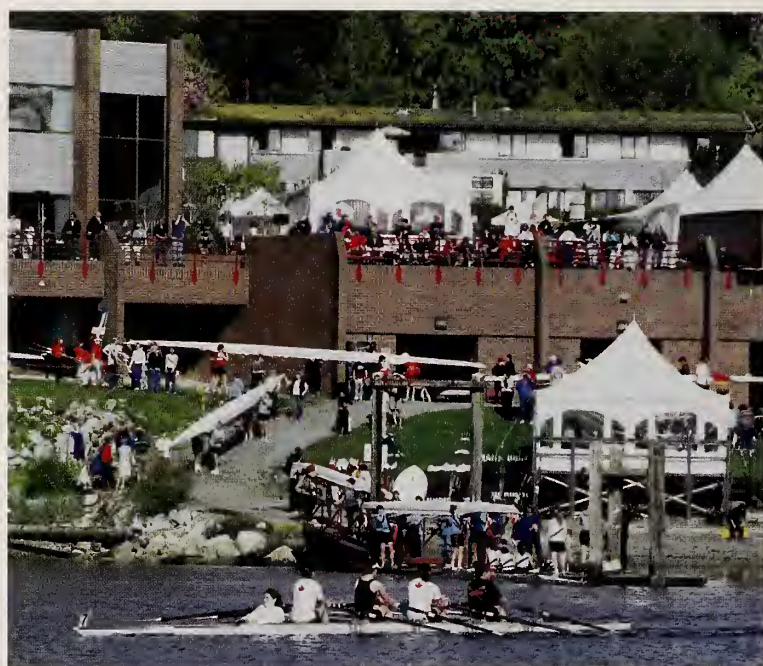

The Student Activities Committee deserves praise and thanks for the wonderful speakers they brought to the School this year.

# Dance

The 2000/01 season has proved to be a busy and successful one for the three B.C.S. Dance Companies. After a wonderful first public performance at the Cowichan Music Festival in March, the dancers went on to prepare for festival appearances in Victoria. The Evening of Dance on May 25 was a culmination of these two events, along with several other class dances, solos and duets, many of which were choreographed by our own talented dancers. Special thanks goes to dance captain Samantha Baxter and young choreographer Kapri Thomas for their never-ending enthusiasm and extended voluntary hours in the dance studio. Well done dancers!

# DRAFTING AND DESIGN

Three students in the advanced drafting program this year, Malcolm Walter, Donald Elliott and Gabriel Mak, designed and built models of their projects. Malcom also put together a model of his project. It was put on display in the main Art Gallery.

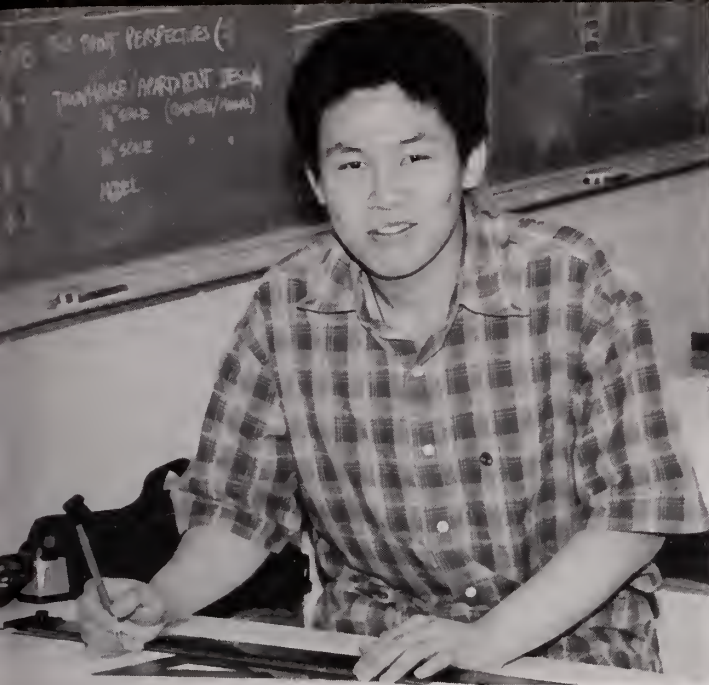

A number of excellent hard-working students were awarded Fine Arts Colours for Drafting. Micah Bookham, Chris Lee, Michael Pollard and Edward Chow received Intermediate colours and Kris Baker received Senior Colours.

Congratulations to all the students and good luck to all the graduating students!

 B. McNutt, F. Lopez, L. Phillips, *Front:* J. Radcliffe, S. Leclerc, F. Barrera, T. O'Malley  
 (Captain), S. Foote, K. Vale, D. Van Haren

## THE MIGHTY MICE

If the old adage applies that "you are only as good as your last game", then, by virtue of the Grade 8 team's 35-22 demolition of Shawnigan to wind up the season, this year's miniature mouseketeers were truly marvelous. Led by "Mouse of the Year" Tom O'Malley, the rodent pack finally became more pesky to their opponents than they were to their coaches. Out of a male population of a mere twenty boys, we managed to put together a remarkable record, winning more than half our games and finishing second in the Mid-Island Championships. Colours winners and stars of the future including, in addition to O'Malley: Noah Stevens, Sean Foote, Adam Reid and Stephen Pointon.

*Left:* Sean Foote crashes ahead with O'Malley in pursuit.  
*Above:* Reid again, supported by Stevens, Pointon and Beswick

The season began with a ten-a-side tournament in which we defeated St. Michael's, but narrowly lost to St. George's and Shawnigan. The rugby was fast and frenetic with lots of opportunity for open field running by our speedsters, Derek Candy and Liam O'Brien. The forwards enjoyed a good workout but were glad to move on to the format at Mt. Prevost High School where they notched up their first win 38-26. The first Independent Schools fixture was away to Shawnigan and, in a hard fought match, we narrowly lost 18-7, a try by Tony Chen being denied after a great piece of pressure on the blind-side of the scrum. Tony charged down the scrum-half's kick, caught the ball and dived over. Former Brentwood teacher Mr. Graham Lynn was unsighted, however, and no score was recorded.

Away to SMU, we dominated the game and led throughout, the best performance coming from Adam Cocks who made the line after a superb break from fly-half. In the first half, Russell Ridinger had also crossed the line after a tremendous run from an "eight man pick-up" but unfortunately just tried to go "under the posts" and lost possession. Leading by six points, well into injury time, we managed to snatch defeat from the jaws of victory and concede a try, which was converted to give them the one point final margin. Intensity in defence was perhaps the weakest part of our game and came back to haunt us in the return game at home to Shawnigan which we again dominated, only to lose by a single point, after conceding

a couple of soft tries against the run of play. In the meantime, we had a good win over SMU at home, a game in which Ginjiro Yamagishi scored three tries by running hard onto "trailers" from scrum half Miguel Ludlow who also had an excellent game. The Mid-Island final against Shawnigan was a hard-fought battle but, within ten minutes, we had lost centre Jim Gordon with a concussion and Ginjiro with a broken collar bone. Captain Adrian Corscadden played, as always, a game full of heart to keep the team going forward but the Shawnigan rivals again edged us out and we will have to wait until next year to settle the score. Given the latent talent of this group, I am sure that, once they gain some more experience, they will have a winning season.

Heenatigala, T. Martin, M. Allkins (coach), **Front:** K. Saville, L. Francis, S. Armstrong, T. James (Captain), R. Benson, S. Wang, S. Beruschi

As is normal with the Grade 10 year, there was a large intake of new students, which meant that there was a great deal of raw talent to work with, but they were keen to learn. From day one, some of the new students (Brandon Diana, Stefano Beruschi, Jo Genest and Kennedy Saville) showed a willingness to prove to the coaches that they were worthy of selection to the 'A' team and that they really wanted to make an impact. It was also very nice when Stephen Axworthy asked to play tight-head prop. The first games were in the ISA tournament at St. George's and this experience was a bit of an eye opener for the team. The standard had been set. From this point on, training

became very focussed and the students started to work very hard.

From early in the season, we could see that the overall strength of the team lay in a very strong, athletic set of forwards, with a solid back row trio of Ray Benson, David Jameson and Brandon Diana. The backs were solidified in defense with the return of Jon MacIntosh from injury, allowing Tom James and Scott Armstrong to act as a wall in the centres. The season finale was the Vancouver Island Tournament at Shawnigan, in which we finished a commendable third. Strong performances were put in by Chase McMillan, who scored a hat-trick of tries in the first game, and some silky running by

Scott Armstrong. Kennedy Saville and Matt McClellan vied for the fullback position, both playing with purpose and pace. The player of the season, though, was Tom James. Tom led from the front, both in attack and defense, giving 100% throughout. He was a true gentleman as Captain, setting an example with his conduct. He is a worthy winner of the Mackenzie Boots.

## COLTS B & C

Another laudable season for the Brentwood Colts amply demonstrated the strength in depth of our rugby program. A large proportion of the "Blazing B's" and "Crazy C's" were novices to the game and were "boot camped" through basic skills drills in the first two weeks of term. To their credit, they showed great zeal and enthusiastically kept just ahead of the whips and baton sticks, to develop a powerful, running style of game.

The "Crazy C's" were undoubtedly the most successful team in the Colt program. They won all their games this season and provided a fertile learning ground for the individuals to hone their skills and techniques in search of promotion to the other teams. Stalwart tackling performances were turned in by Devon Lawrence, Darren Reynolds, Mason Bennett and Bo Zulonas. Marcel Probst, Marcus Woernle and Ryan Van Haren played with devastating effectiveness and produced some memorable moments of sparkling rugby.

The "Blazing B's" were the heart and soul of the Colt program. Every game was a gritty, hard-fought contest with notable wins over SMU, Shawnigan and St. Georges. There were also heart-rending losses where the flow of the game did not justify the eventual outcome. The 'B' players were often called upon to perform double duty

- playing a 'B' game and substituting for 'A' and 'C' team games.

While it is impossible to mention everyone who produced a spark of magic on those green fields of glory, honourable mention should go to Jay Park, Matt McClellan, Nick Tedeschi and Stephano Beruschi, who attained 'A' team status for the Island Finals. Another notable was Ryan Gallagher whose inspirational speed and tackling skill denied the opposition on so many crucial occasions. Steve Walter, buried time and time again, had the Weeble-like quality of NEVER staying down. Jim Lang, truly the cornerstone of our scrum, produced some memorable open play rambles that will live in our memories for years to come. The whole Colt squad this year was truly a joy to coach; all the players truly had a sense of team spirit which flowed through the program as a whole. We had not so much three teams, but one huge team that spread itself over three different fields to participate.

The 2001 season was one of rebuilding for the 1st XV with only seven of last year's squad returning and a number of junior players joining the group. Again the team competed in two competitions; the BC Exhibition Super League and the BC High Schools Provincial League.

The team was slow to start, losing an exhibition match. After a training camp at the end of spring break, the team came out strongly to win their first two Island League games. Unfortunately, injuries to key players weakened the team and Super League games against the number one and two ranked teams in the province were one-sided affairs. A closer game against perennial rivals Shawnigan, saw the team go down 13-3 in a hard-fought battle. Two narrow losses forced the team into a play-off against Mt. Douglas for a berth in the Provincials. The team came out firing and was never pressed, coming out with a 50-0 victory.

The Super League exhibition series concluded with a match against St. George's and managed a 13-12 victory.

The team looked to be peaking at the right time as they led the fourth ranked team, Carson Graham, 10-8 at half-time of the opening game of the Provincials. A lapse in focus allowed the much bigger Carson Graham to come back in the second half and run out eventual winners. Back to full strength for the second match against Vanier, the Brentwood pack dominated and the team avenged their previous two losses with a convincing 31-8 victory. In the third match, the forwards again stood out, dominating in every phrase; however, the backs, unlike the previous day, were unable to put the finishing touches to some very fine work. A tryless 6-3 loss was the final result. Two wins and two losses put Brentwood in 11th place. With 14 of the 24 man Provincial squad returning next year and a strong group of junior players moving up, the coaches are looking forward to next season.

S. Skoretz, N. Langdon-Wilkins, A. Turyk, T. Medina

The girls First XI Field Hockey Team achieved a fair measure of success in the 2000 season. The last comparable record was in 1994. Tara Medina (Team Captain) and Lindsay Mackenzie (Vice-Captain) led a feisty, competitive team that was composed mostly of Grade 11 students. The ISA Trophy returned to Brentwood after a five year absence.

At the season-opening UBC Tournament, the team placed 4th out of 24 schools, and, a month later, secured 4th out of 16 at the prestigious Bridgman Cup Tournament in Victoria.

Finishing 6th at the sixteen-school 'AAA' Provincial Championships held in Burnaby was a just reward to round off the season. That was our best showing since 1993.

After the 1st XI had been selected, there were about 30 girls remaining. It was suggested that we form a team of Grade 11s and a team of Grade 12s each with 2nd XI status. Thus were born; the 2nd XI 'M', Grade 12s who were coached by Mr. Musto, and the 2nd XI 'W', Grade 11s coached by Mrs. Whitney.

Tara Medina (Captain)

## 2nd XI 'W' Team

Very ably led by last year's Junior A players, Katie Pointon and Alex Cocks, the team of 17 players quickly gelled into a fun, fighting unit playing great team field hockey.

Katie Pointon was needed by the 1st XI at the end of the season, but she played in all our games and led the team positively. Alex Cocks found she had to use her experience and strength to the utmost, because fifty per cent of our team were beginners. Of our returning players, Renee Chan, Yuri Kimura and Katie Lin had to develop strong hits to keep us out of trouble. Anna Uno learned that she had another leg and other fingers when she got hurt, and had to carry on. Erica Zacharias gave up valuable study time to anchor the fullback line. Katie Pintye learned that she had to come early, fall over and save goals to keep us competitive. Julie Piazza, an import from Victoria, quickly established herself as a valuable member of the forward line. The rest were, oh so brand new, but with constant urging and great enthusiasm, they all turned out to be credible hockey players. Our highlight was a 2nd place finish in the final tournament.

**2nd XI:** *Bottom* : C. Theaker-Brown, R. McDaniels, J. Piazza, K. Pintye, K. Lin, K. Mallory, *Middle*: A. Uno, A. Cocks, K. Burris, E. Zacharias, C. Bachman, Mrs. Whitney, *Top* : R. Chan, A. Ferguson-Garm, Y. Kimura, S. Gottlileb, A. Wong

**Brentwood "Old Girls" XI:** *Top*: L. Ferreira, R. Kinkead, J. Drayton (Hutchinson), J. Jackson, H. Martin, B. Sharpe (Dyson), B. Robinson, S. Beeston, L. Rodford *Bottom*: G. Braun (Szamosi), S. Whitney, O. Musto, S. Shannon, S. Mais, E. Mais, S. Maxwell-Smith

Score: 0 - 0

## 2nd XI 'M' Team

With Kari Hergott at the helm, the 2nd XI trained hard, played hard, and enjoyed an extremely prosperous season. Their war cry could be heard for several miles, with Corinda Ouellet and Katie Myrfield leading the cry. In the midfield, the team was blessed with players of high calibre. Anika Renshaw, Evie Mills and Ameer Barber made up the backbone of the team, creating many opportunities for their striking colleagues to score.

The team developed into a finely polished tribe of players over the season, with numerous victories and undoubted respect for their coach.

**2nd XI:** Bottom: K. Myrfield, C. Ouellet, E. Sarbit, S. Shannon, K. Hergott, R. Evans  
Top: Mrs. Whitney, A. Barber, K. Jackson, A. Bensted, J. Morrison, E. Mills,  
Oliver Musto (coach) absent

**2nd XI:** K. Myrfield, C. Ouellet, K. Hergott, E. Sarbit, E. Mills, S. Shannon, R. Evans, J. Morrison, A. Barber, K. Jackson, Oliver Musto (Coach) absent

## U16 - Junior A Team

The Junior A Field Hockey Team was formed from a nucleus of returning players from last year's team and now in Grade Ten. Julie Martin, Haley Elliott, co-goalkeeper Robyn Burrows, Siobhan McPherson, Charlotte Philippson and Alexandra MacCarthy were the mainstays. Last year's Midget Team provided Kelsey Wood (co-goalkeeper), Jessica Lin, Alex Mills and Olivia Tso. Brentwood was fortunate this year to have local girls, with years of hockey experience, come to the School. So the team was indeed strengthened by Kelsey Norlund, Casey Rose, Alison Fraser and Laura Bungarten. Caroline Kenning, an excellent athlete, completed the team.

The season began full of promise. With such a talented team, how could we fail! We won, or tied all our league fixtures, did well in the John Ferreira Senior Tournament and won the Independent School Junior Tournament. There our fortune turned, as it so often does in any team's season. We fell short in the Mid-Island Junior Tournament, ending up 4th to go to the Islands. Digging our way out of our pool became too much and we again fell short, unable to beat the eventual winners in a hard-fought game. Finishing in 9th place did not truly indicate the talent of our team; however, it was a great learning experience for all.

After the A Team had been selected, we created two equally balanced teams of brand new students, supported by the few experienced players left.

**Mrs. Laura Ferreira**

### Junior A Field Hockey

Undefeated throughout the season, including the Islands, the Junior A Field Hockey Team had a fun and successful season playing with great teamwork and talent.

Our dedication, teamwork and hard practices led us to a gold medal in the ISAs, and excellent games all through first term, narrowly missing placing at the Island Championships.

The team progressed dramatically throughout the season, starting with an inexperienced group of girls who had never played together. Thanks to Mrs. Ferreira's leadership, the end result was a talented and indestructible team.

Thanks Mrs. Ferreira for your great coaching and even better attitude toward the team.

Siobhan McPherson,  
Charlotte Philippson

## Junior 'W' Team

Coaching new players is always a challenge, but with the help of experienced players, Brooke Phillips and Michelle Furbacher, the girls began to see the finer points of the game. Players such as Monica Perez, Bailey Hedican, Sarah McShane and Kapri Thomas quickly developed basic stick skills and, coupled with their great athletic ability, were also invited to play on a 'B' team in tournaments. I was assisted by Katrina Baker who was unable to play because of injury. We played games every week, were not overpowered and even won a few. I hope all the players will have developed a love of field hockey, of fresh air and of sweaty shin guards and will return to the game next year with just as much enthusiasm.

**Rebecca Whitney**

Named after their coach's initials, the Junior K and Junior W teams were coached by Rebecca Kinhead ('99) and Rebecca Whitney ('98).

A combined team was formed for the ISA Tournament and the '3rd Team' was supported by Grade 8 players in a Junior Mid-Island Tournament at the end of the season. The general consensus was that the new players had learned more, were more competitive, and their skills had improved under the leadership of their coaches and with the expertise of the experienced players.

**Junior W:** *Bottom:* M. Furbacher, C. Ward, A. Szewchuk, B. Jameson, B. Farrar, *Middle:* Rebecca Whitney, M. Perez, K. Thomas, C. Schlenker, B. Phillips, K. Baker (manager), *Top:* F. Chang, J. Caswell, M. Kim

**Junior K:** Rebecca Kinhead (coach) absent, *Bottom:* A. Wetherall, L. Evans, A. Harder, *Top:* A. O'Malley, L. McCarthy, S. Chearananta, C. Maytom, G. Gregory, M. Constable, H. Wilson

## Junior 'K' Team

This season's Junior K Girls Field Hockey Team consisted mainly of students who were just beginning their career in this sport. The girls soon worked together as a team. They practised hard whilst learning skills, and then applied them in the local league schedule and in the Junior Mid-Island Tournament. Sportsmanlike and eager to improve, these girls have been a pleasure to coach.

**Rebecca Kinhead**

**Junior K:** Rebecca Kinhead (coach) absent, *Bottom:* H. Wilson, M. Constable, A. Szewchuk, C. Maytom, A. Wetherall, *Middle:* Rebecca Whitney, J. Allard, L. Evans, A. Harder, M. Perez, G. Gregory, *Top:* A. O'Malley, S. Chearananta, L. McCarthy

## Midget Girls

For the first time ever, this team had fourteen Grade 8 girls who learned stick drills, did fitness circuits during their P.E. classes taught by Mrs. Whitney, and who developed game strategies with Mrs. Jackson. All in all, they had hockey on six days a week - a coach's dream! Tonia Medina, being the only player with previous experience, anchored the team at first. As the season progressed, Marlee Hahn, Lisa Small, Jane Griffel in goal, speedy Samantha Choi, Erin O'Shea - indeed, all fourteen proved to be a force to be reckoned with. The team effort culminated in a 2nd place finish in their final tournament. No mean feat when you consider they had first handled a field hockey stick only two months earlier!

**Mrs. Jane Jackson**

**Midget Girls:** *Bottom:* M. Thompson, S. Choi, J. Griffel, M. Charette, T. Medina, *Middle:* J. Jackson, S. Williams, L. Small, J. Brown, H. Wraw, L. Armour, *Top:* M. McPherson, E. O'Shea, M. Hahn, M. Sornarajah

## SENIOR GIRLS VOLLEYBALL 2000

As training camp began, and as all the new faces looked at me, I knew that this year would be one of development and hard work. Not one of the girls who had played on last year's squad was returning. All had graduated and moved on to university. So a whole new team was to be shaped and that we did. Every experience, despite having been carried out for years, was new to this group. The intensity of senior level play, the hard work and the frustrations. This group lived up to it all. They worked hard, they committed to the process, they sweated, they hurt, they bled, but they gave all they could to learn and to make themselves the best possible team. The seven Grade 11s, Lindsey Lerch, Georgia Murray, Tricia Persson, Amanda Hahn, Jessica Lau, Lyssa Kayra and Melanie Jones, one Grade 10, Cassidy Shore and two Grade 9s, Djuna Field and Jessica Wilson, gave all they had at every turn, as did manager Jessi Haines. The year began with the intensity of training camp, with many players starting from the beginning at each skill level. The usual landmarks were hit: the quarry, the mountain and Earl's. The first tournament of the year

was the ISA Championships - this year hosted at Brentwood.

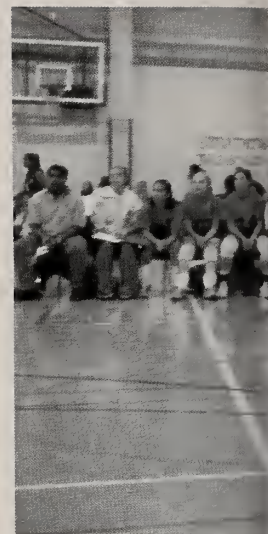

The first senior level competition was difficult for the team, but they played well in parts finishing 8th of 9 teams. From here, the squad went on to the Camosun College Invitionals where we were last year's champions. Again, the competition was tough, but the girls played better than at the ISAs and learned a great deal.

Next came the trip to Wilcox, Saskatchewan and the annual Western Canadian Independent School's Championship. Again, we were the defending champions. The team played very well at times and had lapses at others. We did not finish last and we learned a great deal. Tricia Persson was named as the team's MVP for the tournament. It was fun to stay in the dormitories at Notre Dame and to learn from their girls about living at another residential school. The hospitality, as always, was fantastic.

There was a three-week break before the Islands and lots of good time to work on diving, setting, hitting, serving and defense. Again, we worked hour after hour to get better for our last tournament of the year at Woodlands. This time the team was more seasoned and

Manager Jessi Haines and Georgia Murray

Tricia, Georgia and

Djuna Field and Jessica Wilson

had a better idea of what to expect. They came out more prepared and gave every team a better run for their money. They would put runs of 12 or 13 points together, but then would have lapses. This was by far their best play of the year.

In the end, everyone learned a great deal and the team improved greatly. It was, as always, a tremendous amount of fun, and a great deal of work. I am proud of the accomplishments of this team, though different than the last few years. We are getting there. Just watch us next year. This time no one is graduating!

Lay-up for Neil  
Captain Charlie Bendall

At the beginning of our year, the general consensus was that this season would be one of failure and reconstruction. However, the natural athleticism of the newer members of our team (Chris Roberts, Clayton Smed, Mike Brown, Hayes Sendall and Rezwan Manji) was a significant factor in developing the team. As the season progressed, the team's true colours began to shine through as was evident in the huge upset over Gulf Islands Secondary. The win kindled a spark of enthusiasm in the team and showed the potential which we had within us. Over time, new "El Capitano" Charlie Bendall learned to harness his energy and assume a leadership role so that in moments of turmoil, he consistently commanded the team. Along with him, low post Neil "Jaws" Talsma, "Electrifying" Richard Yu, the "Veteran" Hans Harn and Kevin "Clutch" Chow contributed to our success.

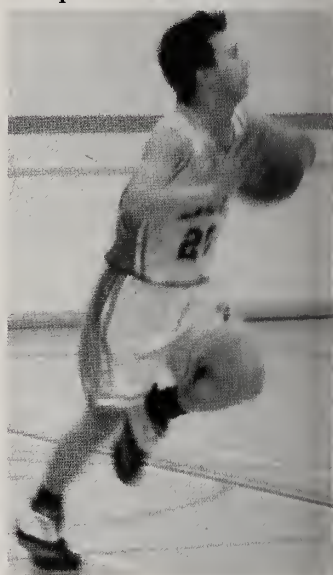

Then the long Christmas break came and it seemed everyone had had too much turkey, as what should have been a first place finish at the annual Cavalier Classic turned into a disappointing third. Thereafter, with some motivating words of wisdom from our fearless coach Johnston, we rebounded back with one of the longest winning streaks in Brentwood history.

In February, we headed into the always intimidating sixteen team tournament "Countdown to Playoffs", which our school hosts annually. This year we experienced the level of intensity needed to be a serious contender for a provincial berth. With a fifth place finish and big man Neil Talsma being named to the 2nd team all-stars for the tourney, we all felt confident about what we had to accomplish at the Island Tournament, the season finale. Our goal was to finish in the top three, and we came close to attaining it. Not for a lack of effort, we were eliminated by the outstanding play of our rival Island teams, ending our season. It was a highly emotional time for everyone, though more so for some who would be finishing their high school basketball careers.

Thanks to Chris Roberts, Hans Harn and Charlie Bendall for their commitment to the basketball program. Congratulations to the entire team for an excellent year and to Captain Charlie Bendall for being selected co-MVP at the Island All-Star game. Good luck to those who will be playing next year. We hope the team next year will have as much success as this year's team. Special thanks, finally, to Coach J for his inspiration and patience and to Coach O for his wisdom.

# SENIOR GIRLS BASKETBALL

Our 2001 season began with an impressive performance in the Chemainus Cougar's Classic Tournament. We won against Chemainus and lost to a tough Reynolds team in our second game. We went up against Chemainus again and, in a narrow 43-41 victory, managed to place third in the tournament overall. The rest of the season rolled smoothly and, although we did not qualify for Islands, valuable skills developed, helping to form a strong base within our young team. Out of heart, team and focus - the three components of our basketball bible - this year's team definitely threw their hearts into every game. Never did a ball hit the floor without a team member following soon after (or maybe just Mel), and never did anyone give any less because the score seemed written in stone. After a loss, the team always put a smile on and turned feelings of disappointment into fuel for the next battle.

This year's team also had a great time on and off the court. From the season finale - skills competition, to the many pit stops for DQ, the team was always cheerful and spirited. It's been a pleasure working with these fine young basketball players and I hope that everyone stays with the team. On behalf of the team, I would like to thank Coach Henry for all the support, advice and crazy driving, but, most importantly, for putting the most heart of all into the team. I'd like to wish next year's leaders, Katrina Wechselberger, Melanie Jones and Jessica Lau the best of luck and hope they keep up all the good work and carry on the traditions.

## JUNIOR GIRLS BASKETBALL

This year's team featured a young, but eager, core of athletes. The team worked diligently at understanding the game and acquiring a solid grasp of the fundamentals. The junior girls are a very exciting group of athletes and, with the experience of season and tournament play this year, have grown into a solid team. With the leadership of the returning players, this group will be a force on the basketball court in the fall. Colours: Marlee Hahn, Lisa Small

Sean, Shyang and Chris get their game faces on.

When Clayton Johnston asked me to leave grade eight basketball and move up to the junior boys, I was excited about the prospect of coaching a very promising team. It was somewhat disturbing, therefore, when we lost an early game at Shawnigan. As the season wore on after Christmas, we dropped two more games (to Cowichan and Gulf Islands) and were in fourth place going into the Mid-Island Tournament. What had happened to the great season we had expected?

As it turned out, we were slowly rounding into shape and the team had an opportunity to play in the Independent Schools Tournament the week before the Mid-Islands. In that tournament at Collingwood, we won all of our games (including a brilliant upset of Shawnigan by 16 points) and took home the hardware. Riding the crest of a wave, the team went on to win the Mid-Island Tournament at Cowichan, narrowly beating Shawnigan and perennial power Cowichan. Guest coaches Johnston and Anthony Drawhorn deserve credit for the great wins.

Alas, the season ended with two tough losses in the Island Championships, but the team showed that it belonged there, playing against the big boys.

In our splendid run of victories, Sean Davis was clearly the MVP, but team captain Shyang Wang was the 'quarterback' of the team as our point guard, and fine performances were turned in by solid post players, Brandon Diana and Max Collin. Our outside game benefited from the accurate shooting of Chris Branch and Liam O'Brien (a promising grade nine). Playing supporting roles with energy and enthusiasm, as well as a high degree of skill, were Jay Park, Richard Harrison, Jeffrey Yu, Meshach Heenatigala and Ben Willock.

To all of the players, I offer my congratulations, thanks for their efforts and best wishes for next season.

After a successful term of competition, the midget boys basketball team have proven themselves to be true team players. Their winning attitudes, along with steady improvement in fundamentals, kept them at the top of their division. The team showed great enthusiasm and school spirit by continually being humble whether winning or losing. They all competed with the understanding that the outcome of the game is immaterial, and ultimately, it is playing the game with steady improvement that makes each one of them better as individuals. This made grade 8 boys a team. Colours winners: Noah Stevens, Adam Reid, Steven Pointon, T. O'Malley.

The hockey program at Brentwood College experienced growth and success for 2000–2001. The school iced a complete senior and a complete junior team with 39 students taking part. Both teams took part in the local Cowichan Valley High School hockey League against teams from Shawnigan Lake School, Frances Kelsey Secondary School, and Chemainus Secondary School.

The Junior Team captained by Chad Evans and Kennedy Saville, went undefeated in league play with a record of 5–0. No game was in doubt, and the continued development of the younger players was evident throughout the season. Excellent goaltending was supplied by Scott Armstrong and Michael Smirl.

The Senior Team captained by Jamie MacIntosh and Rob Weedon was the class of the league and finished first overall with a record of 5 and 1. The team played some very disciplined hockey and learned the value

of working as a team. The highlight of the season had to be the 5–1 victory over arch-rival Shawnigan Lake School at the annual Showcase game that was played in front of over 350 fans from both schools.

Brentwood College hosted the only high school hockey tournament in BC, the Second Annual Ross Cup. The tournament expanded to twelve teams from eight, in 2000 and included a Junior Division. The competition was excellent and it was the best hockey played by the seniors in the last three years. In the Junior Division, the BCS Squad finished second and took home the silver medals.

The support of the school and the student body for the showcase game and the tournament games was outstanding. Special thanks to those from Mackenzie House and from Mr. Flynn's Marketing 11 class for their hard work in making the tournament a success.

A team is not a team without a coaching staff and the one assembled this year was dedicated and resourceful. Using limited ice time, for two teams, and with so many players, their hard work was appreciated by all. Special thanks to assistant coaches Mr. Shrawan Khanna, Mr. Ken Bushell and Mr. Bryan Flynn.

## SENIOR BOYS' SOCCER

The 1st XI soccer team had a most successful season, playing an exciting brand of soccer. Led by Spencer Reid and Connor Grimes offensively, and Noel Day and Tom Philippson defensively, the team finished the regular season with an outstanding record of six wins and one loss. The squad was solid throughout and all players contributed to the team's success, playing with heart and price.

## SENIOR BOYS 2ND XI SOCCER TEAM

You say the gyre is widening? Credit is due to the 2000 installment of the 2nd XI, better known as "The Second Comings", who turned more than just a few heads. Twice the 2nd XI of Shawnigan Lake were rash enough to challenge us to a match; twice a flood of goals, 7-1 and 8-0 drowned their ceremony of innocence, leaving only a lonely falconer to bemoan the loss of his bird. I could mention the second annual Barswood Cup, but I won't. I will mention Aidan Benson, who was as fast as Gandhi during Lent, Malcolm Walter, who tackled as hard as Mr. Gradgrind's times, captain Adam Turnbull, who led the team like the refills for a mechanical pencil and Donnie Elliott, who was as talented as... David Cupples. Some teams are the stuff that dreams are made of. I say Shuntaro Yamagishi is too good for those vague abstractions. The 2nd XI were, if nothing else, a sobering dose of reality.

## JUNIOR BOYS SOCCER 2001 SEASON

The Junior Boys Soccer Team made great strides over the course of the season. What started off as a group of rag tag individuals, finished the season as a cohesive unit. As the season progressed, they began to understand the importance of organized team play, and started to take greater pride in playing their positions. A system of play took shape and team performances improved. Defensively, Tom James and Dean Beekman performed admirably. Impressive play by both Branlin Shockey in goal and Peter Dobson defensively further strengthened the backline. In the midfield, tenacious work by Steven Walter and quality balls played through by Jon Macintosh helped to mount the attack. Up front, Orlando Napier exhibited a deft touch and created numerous scoring chances, while Jack Allpress' speed and goal scoring prowess helped to secure victories against Mount Prevost and Shawnigan. The season concluded with the Mid-Island Championships hosted by Brentwood. The boys played well, beating both Quamichan and Duncan Christian. Unfortunately, a penalty shoot-out loss to Gulf Islands ended the season. Nonetheless, the boys were successful in improving their team play and achieving a winning record. Well done!

J. Atterbury  
Coach

(back) B. McMahon, C. O'Brien, F. Lopez, (middle) D. Zinnemann, J. Peacock, B. Chang, N. Stevens, A. Chan, (front) E. Leyland, B. Mallory, A. Tarver, M. O'Meara, C. Brennan

(back) J. Atterbury (Coach), T. Merwin, B. Shockey, M. Reichert, D. Beekman, R. Benson, J. Macintosh, O. Napier, L. Francis, (middle) D. Candy, J. Allpress, D. Lawrence, R. Van Haren, A. Higginson, P. Dobson, (front) L. O'Brien, A. Cocks, M. Bennett, T. James, S. Walter, M. Ludlow

Seventh in 1999. Sixth in 2000. The Senior Girls 1st XI soccer squad wanted nothing less than fifth in 2001 at the Mid-Island tournament. It could never have happened but for Irish and her Technicolor Goaliecoat, which made opposing strikers avert their eyes; for Arran Hamilton, who tackled a girl so hard, all that was left of her was a wisp of marrow; for Katie Lin, who shot a ball so hard it landed in the ocean near Saltspring ; and Louise Hackett, who played in so much dance makeup opponents let her score a hat-trick as they felt sympathy for the "courageous burn victim". Last, but not least, captain Christina Wraw, who was the best female soccer player to ever play at Brentwood College.

Paul Collis

## SENIOR GIRLS SOCCER

"TARA, GET THE BALL!"

## JUNIOR GIRLS SOCCER

The Junior Girls enjoyed a run of five games without defeat before losing narrowly to Quamichan. We finished third in the Mid-Island tournament and hosted the Islands this year. The ISA tournament was also at Brentwood and we finished second beating Queen Margaret's 4-1. My thanks to all the girls and to Bailey and Shannon who did an excellent job as co-captains. Jessica Lin and Kelsey Wood were outstanding in midfield and Jennifer Roberts was sweeper extraordinaire. The four grade eights Lisa, Jane, Nicholle and Sarah kept us laughing, particularly Jane doing her "Michelin man" impression. Thanks also to the parents who supported us, especially Mrs. Charette with the lifesaving hot chocolate.

Lisa McCarthy

A. Fraser, N. Charette, S. West, A. O'Malley, S. Williams, J. Lin, A. Szewchuk, C. Kenning, J. Furbacher, J. Griffel, L. Small, J. Wilson, C. Rose, B. Hedican, K. Burns, L. McCarthy, K. Wood

## CROSS-COUNTRY

(back) N. McLean, D. Woods, B. Gosnell, T. Harris, M. Baylis, M. Howard, L. Raudzins, S. Milligan, (middle) G. Delano-Stephens, A. Payne, M. Richmond, M. Paulson, K. Reid, R. Johnston, (front) Rob Rose (Coach)

With forty entrants, the cross-country program proved to be a popular sports option. Many of the group were new to the sport and some, no doubt, thought they had bitten off a bit more than they could chew. However, as the year progressed, so did the students. Christopher Chu became a strong competitor, as did Terry Lui and Shuntaro Yamagishi. Tony Harris, Derek Woods, Lupin Raudzins, Kim Jackson and Ryan Gallagher were all top finishers in outside competition, with Kim taking first place honours in a number of prestigious events, to bring her a ranking as one of the Island's top runners.

We dominated the inter-house cross-country wind-up with Kim Jackson taking second for the senior girls, Ryan Gallagher taking first for the intermediate boys and Connor Grimes and Brian Gosnell tying for first place in the senior boys. All in all, a great year!

## MOUNTAIN BIKING

(back) C. Ambrose, B. Dawson, D. Finlay, (front), E. Elliott, A. Corscadden, Miles Allkins (Coach), L. Gosnell

Once again, the second term mountain biking group was able to enjoy relatively good weather conditions which allowed for some long afternoons riding through spectacular terrain.

The group was mixed, with two girls (Lindsay Gosnell and Kate McDougal - an exchange student from New Zealand) and nine boys. As in the previous year, the majority of the guide work was carried out by Donnie Elliott, a local day student who is very experienced on the surrounding trails.

After a fun season of second-term mountain biking came to an end, three riders took their mountain biking further. Chase McMillan, Byron Dawson and Lindsey Gosnell have had an excellent start to the 2001 race season. Starting off with three high school level races, the riders came home with excellent results; Chase two silvers and gold, Byron two golds and silver, and Lindsey three golds. Byron competed in several provincial races, placing amongst the top 10 and 20 riders of a highly

competitive category. Chase and Lindsey travelled to a BC Cup in Mission, BC. Both Lindsey and Chase came home with gold medals.

My thanks go out to the McMillan family for being so supportive of the students. Chase, Byron and Lindsey were all very worthy winners of their mountain biking colours, each of them showing a superior level of skill throughout the two terms. I would also like to thank Donnie Elliott for his efforts over the last two years.

Miles Allkins

Miles Allkins (Coach)

## GOLF

This was very much a development year for a young golf team. Many of the players have gained great experience in tournament play, which bodes well for our future. The highlight of the year was the closely fought contest for the Rob Soukop Memorial Trophy. After two rounds, three players were tied on 149: Mark Aven, Brendon Hall and Jamie Macintosh. This resulted in a sudden death playoff, starting on the tricky par 4 first hole. Brendon was eliminated with a bogey, with Jamie and Mark both scoring par. The eventual winner was Mark Aven after five holes of close play. It provided an excellent viewing spectacle!

# Tennis Three-Peat B.C. Champions

This year Kalamalka Secondary School hosted the Provincials in Vernon. Brentwood had a tough road to the finals, playing Kalamalka, McMath and Collingwood on the way, and then their old rivals, Shawnigan, in the final match. The final was tight and after eight matches, it was tied 4-4. Brentwood took the last three matches winning by 7-4. Individual awards went to Matt Baker and Steve Hodgson, Brentwood boys A doubles, as the top doubles team, going undefeated the duration of the tournament. This championship is the culmination of many hard hours of work for all the players on the team. Thank you to coaches Mr. Franco Biondo and Mr. Murray Hough and staff sponsor Mr. Rob MacLean for their support. Congratulations to all the graduates of the team, and good luck next year to the returning players.

Matt Baker

M. Hahn, M. McPherson

Field hockey in the third term was introduced to Brentwood in 1970. It was a sport for boys only for many years, but in the 1980s, a handful of girls campaigned to join "boys field hockey". Other independent schools and public schools on lower Vancouver Island provided us with competitive games at senior and junior levels

Times have changed. Rowing has grown, junior soccer and senior rugby have been brought into the third term, and a new "sport" of throwing plastic discs around a field has been offered.

Along with other choices of activities, the number of boys electing or able to play field hockey has diminished to twelve in 2001. Our traditional opponents face the same attrition of numbers and the inevitable outcome is the demise of the sport in schools. In contrast, girls field hockey is flourishing in the community and we were able to put two female teams on the field in competitive matches every Tuesday.

The main value of our programme is to introduce younger students to the game and to provide some extra experience for the girls who will be playing in the season that started in September.

Howard Martin

# TRACK AND FIELD

(back) R. Sainsbury, R. Yu, M. Collin, J. Yu, (middle) M. McClellan, J. Sander, K. Thomas, R. Brown, B. Sloan, (front) Anthony Drawhorn (Coach), S. Choi, A. Mickelson, M. Perez, R. Kerswell, L. Hackett, Mike Flynn (Coach), (absent) C. Ogut, K. Lin, K. Chou

Track at Brentwood continues to grow in enthusiasm and in quality. This year saw the team compete in both school and club events (9) on Vancouver Island and in Vancouver. All of the athletes represented themselves, and the school, very well. Over the course of the year, we saw newcomer and veteran alike improve their skills and raise their own personal standards. Rachel Kerswell qualified for the Provincial Championships in High Jump after placing second on the Island. There was solid leadership on this team throughout the season and we thank Rachel Kerswell and Richard Yu for this.

Training commenced in the third term and the team travelled twice weekly to Duncan to practice at the Chesterfield Recreation Complex, which has one of the best rubberized tracks on the island. The team worked very hard

with all athletes competing in at least three events. The team ventured off the Island and competed in a high school/club meet in Richmond, and all athletes showed very well, with most setting personal bests for the year. Following this meet, the teams competed in the Senior and Junior qualifying meets. At the Central Island Championships, all of the juniors qualified to represent Brentwood at the Islands in Nanaimo, and it was the best showing of the group in the last three years. Many personal bests were achieved and a fair share of ribbons were won.

Thanks to assistant coach, Mr. Anthony Drawhorn, for his time and effort, and the enthusiasm he brought to the team all season.

Champions, Team Sweden, The Ultimate Cup: Tiffany, Stephen, Dan, Sam, Charlie, Marc and Brock.

Fast and furious frisbee action features Sam Baker, Marc Bauche, Brock Robertson and Chris Roberts (making a great catch).

## Brentwood College Rowing Club

Reflecting back on this year's activities and performances gives me a great deal of personal satisfaction. The Club has grown in numbers but has shown more cohesion and group interaction than ever before. Rowers took great pride from being members of the Brentwood Rowing Club. They supported one another enthusiastically at competitions whether or not their own personal performances were above or below par. They helped out in workouts whenever needed; girls rowed in the boys' crews and boys rowed with the girls; juniors filled in for seniors and vice versa. No one stuck to their own turf or trained in isolation. In the racing season, the whole Club followed a similar training programme and the morning practices had flotillas of racing shells going back and forth on the racing course.

We have very tough competition in our league by racing against the big city clubs that call on many high schools for their athletes. Marin in San Francisco, Green Lake in Seattle and Victoria City in our own capital, can have as many as a dozen high schools to create their membership base. We have to set our own standards very high to match these clubs and it has become harder every year to equal their speed or beat them. It is even more difficult in the girls' division, since these clubs have many more crews than

boys, and their level of performance is always extremely high. Despite these advantages, these clubs do not always prevail against us, and we were close to the leaders in every division. We took many second places by narrow margins but we always raced strongly to the line and forced our opponents to go to their limit to defeat us. On the overall regatta points system, we lost narrowly to Green Lake at the Brentwood Regatta and even more narrowly to Victoria City at the Shawnigan Regatta.

We come into our own when we leave the club scene and go to the National Schools Regatta, the C.S.S.R.A. Championships in St. Catharines, Ontario. This year we took forty-eight students, six coaches and two boatmen/trailer drivers to the Regatta. We entered nineteen events, got into thirteen finals and won eight medals, four of them gold. When you realise that getting into the top six boats in one girls' division with fifty-four entries meant winning one of nine heats and one of three 'semi-finals', leaving forty-eight disappointed crews on the shore, it puts any final place in perspective. Nonetheless, a fourth place finish is always hard to take, but I am sure it will motivate many to gain high places next year.

In winning the overall points trophy at the Nationals, our Club can truly

lay claim to being the best school club in the country and in the continent, since many U.S. schools attend this 'open' championship. Even more satisfying is the realisation that every section of the Club earned medals and gained points through heat placings and final positions. It was not the work of one group only, but we must give special mention to our very talented junior boys who won three gold medals on finals day.

In the following articles, you will hear from the coaches or athletes, how each separate division handled the year's training and competition. I want to thank all the coaches in our Club for their dedication, patience and understanding. Special thanks must be given to Debbie Sage, as Club coordinator, planner of trips, regatta organiser. She is the person who weaves the complicated fabric that is the Brentwood College Rowing Club of the new century. She keeps us all on our toes, often prevents our errors and sometimes covers up our mistakes. Steve Titus, our boatman, is also a big part of our success. He is a creative craftsman, a tireless worker and a good friend to the coaches and athletes alike.

The Club was well served by two students in the leadership roles, Marja-Lisa Paulson, the girls' captain, and Morgan Baylis, captain of rowing for this year. It was

a very moving speech that Morgan gave after the Nationals in St. Catharines. He had three years at this regatta and took away five medals, two gold and three silver.

The final paragraph of my article is devoted to the coaches who worked with me this year. They are the reason we have had the success in 2001 and have created the base for future champions. In the most junior division, Sue Whitney and Laura Ferreira led our Grade 8s. These ladies introduced many future champions to the sport. In the Junior Girls' division, Debbie Sage leaves her paperwork and goes on the water with Crystal Harvey. They had a fantastic season and have great future potential. The Junior Boys had the services of Jim Ganley and Richard Curry. Their success this year is a fitting reward for their long-term planning. The Senior Girls again had Sue Walker as Women's head coach and they had the most successful season ever. In the Senior Boys, the novices were coached by Allan Wood and the experienced boys by Brian Carr and myself. I could not ask for a better team of coaches. This has been the most enjoyable season being the head coach of this programme. I want to thank all the coaches, as well as the School for supporting these students in attaining their goals and winning the overall championship at the Nationals.

## SENIOR BOYS ROWING

The year started with a large group of athletes and one coxswain and dwindled to a group of 12 athletes and one coxswain. The coaches made it apparent to the squad that there was going to be a First Eight and then a Lightweight Eight. Each of the 12 rowers took this challenge and worked very hard to challenge for a position in the First Eight.

The fall races were exciting, ending with a Vancouver Island championship in the eight, quad and double. Earlier in the term, we hosted Green Lake from Seattle where Brentwood's lightweights finished ahead in all the races. In the winter term, training was rigorous. It was here that the crew gelled and became a unit that would represent the School in the spring term. Nine athletes travelled to Los Gatos for a great spring training camp and meets with Los Gatos Rowing Club and Marin Rowing Club of San Francisco.

The Brentwood Regatta has become the single largest high school regatta in North America. It is said around rowing circles, that if you win the Brentwood Regatta, you should automatically qualify for the American Nationals. The regatta started off on a high note with wins in the JV and Varsity quads and silvers in the

Lightweight Quad and Senior Double. The Lightweight Eight won by the closest of margins against the same crew from Green Lake and the First Eight, fighting for a position for top spot, finished fourth.

The next weekend was Seattle for Opening Day and for the JV Eight, a dual meet with Green Lake. The JVs and the First Eight did not win but came close in all of their races.

The rest of the term was dedicated to preparing for St. Catharines and the National Championships. The Senior Quad finished fifth behind some very fast and big crews from Ontario and the Senior Lightweights narrowly lost. The

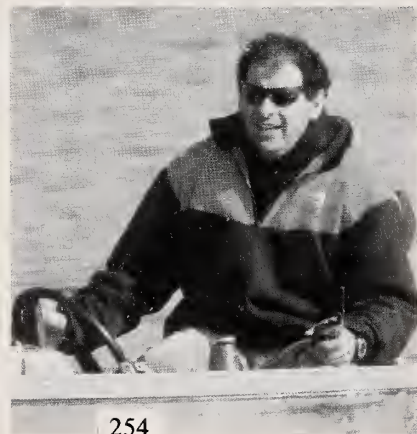

Senior Pair of Malcolm Howard and Terryl Brennan overcame racejitters in the semi-finals to win the gold medal easily. The First Eight tried everything to stay with their opponents, but, in the end, won the silver medal. This was an incredible accomplishment, considering that we had five Lightweights in the First Eight.

It was such an honour to coach these fine athletes. On behalf of the coaching staff, I would like to wish all the grade 12s the best of luck next year. To the grade 11s and grade 10s, we look forward to working with you next year.

A final note to Tara Medina and Morgan Baylis. Tara

has been in the program for five years and has competed in five National championships, winning seven medals including two gold. She has left a legacy at Brentwood. We wish her all the best with the American Junior National team, as well as in her four years at Michigan. Finally, we would like to thank Morgan Baylis for his five years at Brentwood, with the rowing program. He was a quiet and unassuming leader; however, when asked, he spoke with maturity beyond his years. I will miss you grade 12s, but I look forward to working with all those brave enough to join the senior program next year.

Silver medalist Senior Women's 8 - St. Kitts

## Brentwood College Women's Rowing 2000-2001

As we began our 00/01 racing season, we came out with something to prove. We had spent some time building and hoped this would be a peak year. We had a lot of second places to Vic City but had an overall gain of twelve seconds on them by the end of the year. Over spring break we travelled to California to train in Los Gatos. We gained technique and experience as we raced and trained with the crews there. During the third term, the training picked up and we started preparation for the National championships. We spent endless early mornings building our speed and maintaining technique by racing the men's crews. We went to St. Catharine's prepared with everything from matching socks for intimidation to good luck nightgowns. In the end, all the hard work paid off. We walked through the tunnel of oars with smiles on our faces and silver medals around our necks. We couldn't have accomplished our goals if it hadn't been for the dedication and perseverance of the athletes as well as the coaches. On behalf of the program, I would like to thank Ms. Walker and Mrs. Sage for doing an amazing job, as well as the men's coaches who helped us. Good luck to next year's crews!

## JUNIOR C ROWING SQUAD

Rowing in two regattas was an exciting experiment, if not a nerve-wracking one, because of the fact that the grade 8s were introduced to rowing in the final term as part of their P.E. program.

The athletes fortunate enough to have P.E. in that first half of the term were entered into the Brentwood and Shawnigan Regattas.

In three weeks, after seven ninety-minute lessons, four quads were coxed by experienced "coxies" to the start of the 2000m, coaxed into the starting dock and guided up the course to the finish. Our goal was to finish the race competently. This was achieved admirably with a bonus of a bronze medal earned by the Brentwood 'B' girls' boat, coxed by Sarah Gottlieb.

My heartfelt thanks go to Terryl Brennan, a superb grade 12 rower who helped coach the four quads. He was an asset to the programme, being a great role model to the younger rowers.

# PAUL COLLIS' ADDRESS TO THE GRADUATING CLASS OF 2001

**"Are you experienced?"**

A few months ago, I was approached by Grad President Tony Harris, who addressed me in the familiar way that many Brentwood Grade 12 students deem to be their privilege: "Excuse me, Mr. Collis, sir" (I do not always insist upon the "Esquire") - "Sir, you drive a Hyundai, you clearly wear clothes many would deem unfit even for Goodwill, and, as a Grade 11 advisor last year, you only lost five advisees for disciplinary reasons; it seems that you're the logical speaker to inspire the Graduating Class of 2001.

In my heart, despite Tony's claims that I have more good sense in my epiglottis than Mr. Henry and Mr. Ganley do in their combined gene pools, I suspected that the reason the grads asked me to speak tonight had less to do with my wisdom and more to do with my affinity for extending metaphors

Now, you could ask any of my current English 12 students just why graduation is a metaphor waiting to happen, and they would likely respond, "Huh?" But you could ask some of their friends in Lit. 12, and they might tell you that right now, grads, you are golden Pony Boys, but the curtain of mists is rising on the next stage of your great expectations, an odyssey in a world where you may make Boo Radley come out, but you won't listen to him speak because he's not

holding the conch, and all of a sudden you've dodged the catcher in the rye and stand teetering on the edge of the heart of darkness - and that's why the Lit. 12s are unlikely to make many friends next year. But they'd be right to speak in metaphor.

For graduation is a lost and found metaphor. Let me explain. In Grade 8, you couldn't, as one of my old professors used to say about university administrators, you couldn't find your buttocks if you were naked in a brightly lit room full of mirrors. You were as innocent as a day with early morning rows is long. Now, far be it for me to make fun of the rowing program, for what better way to train future administrators than to teach people to succeed by sitting on their rear ends and leading people backwards? But in your innocent pasts, you accepted rowing as a fine art, just as you accepted Saturday classes and Sean Patterson's prefect role in Privett House. We told you where to go, and you duly went. Now, it is you who tell us where to go, and sometimes even where to stick it when we get there.

For deep in Mr. Garvey's lost and found pile of graphing calculators and Rogers House T-shirts (both items I suspect intentionally lost by students to avoid looking like a nerd in public), deep in that lost and found treasure house, fester the remains of your innocent wonder. And I wonder just when you lost it, and when

you found what some people call experience. What made you snap? Was it being told to go back and change into a proper uniform by a man wearing a plaid blazer and slacks from the Kennedy administration? Was it the cookie Nazi? Were Mr. Tate's sighs infectious? Was it the transparent euphemism, "Entrée"? Perhaps it was in assembly, when Mrs. Pennells uttered *De manu in manum* and, for this invariably happens, like an inspired Pavlovian dog, we all involuntarily raised our faces to the heavens as if to catch a glimpse of that mystical torch being passed among celestial alumni hands - meanwhile some thief emptied your pockets of your innocence, and your Gameboy too. Just when you did stop looking at your teachers as sages and start questioning their parents' right to procreate? I don't know, but you did, and you do - I've heard you in the hall. Somewhere somehow you figured out that the facts of life are more than the madcap antics of Blaire, Jo, Natalie and Tootie, and that's when it's time to move on, and that's why we're here.

For every so often in life, an event fills your heart with such gladness that you feel compelled to break into song. Your leaving is such an occasion and this song chronicles the Brentwood life sentence. It's also a good excuse to get this man {Clayton Johnston} up on stage.

I'd like to turn to Bobby D to bring it all back home, because my speech, like your high school career, is just about all over now, baby blue. Also, I would like to take the opportunity to thank a few specific "homeys" (as we say) who I've been lucky enough to (as we say) "hang in with the crib" and have, in their own ways, made me want to put up with ten more years of Saturday school just to see them again at their reunion.

May gods bless and keep you always, may your wishes all come true

Amy, Matt, Lindsay  
May you always do for others and let others do for you  
Jonathan, Andrew, Nick  
May you build a ladder to the stars, and climb on every rung  
Amea, Matt, Robyn  
And may you stay forever young.

May your hands always be busy, may your feet always be swift

Arran, Tara, Christina  
May you have a strong foundation when the winds of change shift

Jenny, Amelia, Sean  
May you always be courageous, stand upright and be strong

Connor, Mark, and all my English 12 class, except Donnie and Malcolm  
And may you stay forever young.

# COLLIS' SONG

## "THE BRENTWOOD LIFE SENTENCE"

May you grow up to be  
righteous, may you grow up  
to be true

Will, Jared, my Privett  
boys...oh, all right, and  
Donnie and Malcolm

May you always see the truth  
And see the light that shines  
on you

Mark, Aggie, Chantal

May your hearts always be  
joyful, may your song always  
be sung

And may you stay, grads,  
forever young.

Let us raise our glasses to this  
finest of classes. To the Grads  
of 2001.

Finally, be smart tonight, and  
be smart out there, where  
there are so many paths to  
choose. Some lead to wealth,  
some to status and some even  
follow the footsteps of your  
successful parents. But I beg  
you:

This above all, to thine  
own heart be true, and it must  
follow, as the night the day,  
thou canst not then be false  
to any one.

Follow your hearts. Being  
asked to give this speech was  
one of the cooler things to  
happen to me. Thanks for  
that.

Hey: Congradulations.

Paul Collis

In Grade 8, you were a bit of a freak

You thought the other sex was gross, but your C.A.P.P. book  
was neat

We tucked you in bed at 9:45

And you looked up to prefects with wide wondering eyes  
Forget graduation

Teach you the birds and the bees

You brought two jock straps, one for each knee

"Take me back, Mom, please?"

Grade 9, still a junior at heart

Nothing made you laugh...like a well-cadenced fart

You snickered through sex ed., admit it; it's true

Who knew, three years later, the joke would be on you?

And graduation

Then still a dream

You were busy padding your bra, or talking to Mr. Bean

You didn't suck, but you weren't weaned.

Grade 10, Grade 10, a transition year

But three years to wait for college and beer

And you dreamed of nights where booze flowed like a frat

Thank heavens you're older now and have outgrown all that

And graduation

Well it could never be true

As like as me speaking on behalf of the school

Just too good to be true.

Then Grade 11, and senior school pain

But that light at the end of the tunnel was only a train

Marks counted now; they confirmed your worst fears

You'd been picking your nose for the past three years

And graduation

Would just have to wait

Your best chance was to come as a date

Ah, but you can't hardly wait.

Now it's Grade 12

The beginning of the end

But ends rear up in many shapes, my friend

You may be finished with us, but we're not finished with you

*(Attention mothers: If you have been patiently waiting to  
subdue a sentimental sniffle, or to dissolve into a pool of  
unabshed weeping, prepare your hankies.)*

You may leave us, but we're not parting, oh no

You're in our thoughts and our hearts, wherever you go

And graduation

Now it begins.

—From the keynote speech given by Mr. Prowse: Closing Ceremonies, 2001.

### Honoured Guests, Parents, Students and Colleagues, Ladies and Gentlemen:

Most of us, at some time or other, have thrown our enthusiastic and often fanatical support behind one of North America's professional sports teams. The reasons for our particular choices are usually obscure and known only to us. For me, it has always been Les habitants Canadiens, the Forty-Niners, the Padres, and the Trail Blazers. In other words, teams with historical antecedents, for each of these renowned and storied sports franchises is helping every day to keep alive heroic pioneering images: the peasant farmers of New France who subdued the Canadian wilderness and laid the foundations of Canada; the itinerant Franciscan missionaries who walked the west coast and established missions that led to the growth of great cities like San Diego; and particularly the pathfinders who opened up the American West.

Those ordinary people were in every way true pioneers. They were the ones with the initiative, the drive and, above all, the vision to take a chance, to tackle and overcome all difficulties, and even to risk everything on a dream for a better future. In the same way, the pioneers of this school—staff and students alike—paved the way for future generations of Brentonians to develop and expand what they had started. What we see around us today represents the culmination of the efforts of these true builders of Brentwood. The names of some of them are well known to us, but there are many hundreds more who, like the nameless farmers, missionaries, and adventurers, struggled in obscurity but whose endeavours made possible the Brentwood of today.

When I first came to Brentwood a few years after the school's opening, I was immediately impressed by the pride with which those students and teachers who had been at the school since its inception, in September 1961, wore their pioneer tie with the crossed pick and shovel on it. In fact, this spirit of the pioneer quickly imbued us all. There was a real camaraderie generated by a feeling of

being on the front line in the battle to turn a dream into reality that carried us through the daily frustrations of inadequate buildings, poor facilities, and lack of money. Obviously, the excitement and challenge of that era can never be recreated, but the need to respect and promote on a daily basis the values and beliefs that the school's pioneers forged is an obligation we all accept when we become part of this unique and vibrant institution we call Brentwood College School. No one, whether it be a country, a family, or a school, can afford to ignore its beginnings. As the popular saying goes, "we must know and understand where we came from in order to appreciate where we are going". I had heard enough about David Mackenzie and his young school that I had gladly opted out of a public school salary and a five-day week job to join his exuberant and eclectic band of pioneers, led by Gil Bunch, who were forging a new school on little pay, no amenities and a twenty-four hours a day, seven days a week commitment. Today, it seems hardly possible that we actually thrived on such appalling working conditions. What made us do it, then?

The answer to that question, at least, is easy. We were young idealists and David Mackenzie was a very charismatic personality. We all, therefore, readily bought into his dream, —a dream of almost outrageous proportions. On the shores of Mill Bay on far away Vancouver Island, he intended to build a school that could rival his own alma mater, Internationally known Merchiston Castle School in Scotland. To achieve in a fraction of the time what it had taken Merchiston over a century to accomplish would, he informed us, take all the energy, enthusiasm and dedication we could possibly muster. He would accept no less and this was the easy part. We had to sell to the students the difficulties of the journey in terms of the rewards at the end for these often questioning and uncertain participants.

Certainly, there were moments of extreme doubt and yet success came amazingly quickly. Shortly after the start of its second decade, the school had twice produced the top academic student in the province, won a national debating title, earned three BC high school rugby championships, and

gained a Canadian rowing title, as well as presented, every year, drama productions that drew highly favourable notices from the local press. In these years was established the commitment to excellence that, today, is one of the cornerstones of the school's continuing success. From these humble beginnings were to emerge students who would become leaders in their field: Ro Hindson and Greg Hood, who turned success on the sports field into national recognition in rugby and rowing; Wade Davis, who went from being Head Prefect and the school's valedictorian, to International acclaim as a best selling author and world-renowned ethnobotanist; Geoff Bowes, whose rave reviews playing the lead in Gil Bunch's *Billy Budd* led to an acting career in Hollywood movies and Canadian theatre; David Wilkinson, whose reasoned questioning in the science labs of Brentwood would help him pursue his dream as an innovative engineer with Ballard Power; and Arne Dahl, whose charismatic athleticism and strong sense of duty resulted in a Silver Star for bravery in Vietnam.

Here was laid the solid foundation upon which successive generations of Brentonians would later build. But these Brentwood celebrities did not do it alone. They represent the well-known success stories of which Brentwood is justifiably proud. But what about the much less well-known hundreds who were their contemporaries at school, because they were a critical part of that foundation as well? These so-called "ordinary students" whose efforts on the far reaches of "B" field, in the chorus line on stage, and in the remedial set in academics, were equally a part of the bricks and mortar that shaped Brentwood and ensured its future development into the educational leader it is now. Today, we do not necessarily recall their names, but they are just as much the real heroes of Brentwood's success story, not because they achieved fame, but because they worked quietly and diligently to develop their own modest talents to the very best of their ability and, in the process, gave willingly to the growth and development of their school. They strove every day, out of the limelight, to be the very best they could be, and with their more famous contemporaries, they built Brentwood along the way, a Brentwood of firm, well-established traditions and

beliefs but also a school alive to the challenges of new ideas.

Now, it is your turn. Today, as we reach the climax of another successful year at Brentwood, all of you are afforded a unique opportunity to reflect on the past, even as you look ahead to future challenges. Today is a day when you need to focus on those qualities that have made Brentwood great and then you must reaffirm your commitment to them. Today, anything less would be a betrayal of those who came before you, particularly those pioneers whose efforts in often difficult and adverse circumstances established the solid base that has allowed the school to thrive and you, the present carriers of the torch, to blossom and grow as worthy successors of previous generations of Brentonians.

The values and traditions that were forged here by your predecessors will never go out of style. They represent the real education that is left over after you have forgotten everything that you had learned here. They constitute the very essence of the Brentwood experience for, though you may never need specifically many of the subjects you have studied here, you will always need the mental facility, understanding, and dedication each one nurtures and develops. Only in this way can you promote the essential underlying principle of the school: that any single thing you do deserves always the very best you can give it.

Today's school has moved a long way from its straightforward, simple beginnings into the vibrantly successful and highly complex institution it is today because of its ability to preserve the best from its past even whilst actively encouraging innovations and change. The 1970s in particular saw the school literally reinvent itself. Leading the way was Bill Ross who had been present at the school's birth and who now took over the reins from David Mackenzie. Under his inspired leadership, the school was never to look back. Gathering around him a group of dedicated and talented young teachers, Bill set off in educational directions the founders had never even dreamed of. Their collective ability to modify and innovate without betraying the original concept superbly

illustrates why a school, grounded firmly in the traditions of a bygone age is, today, at the cutting edge of education at the start of the new millennium. Nowhere was Brentwood's conservatism married more successfully to its revolutionary zeal than in its pioneering efforts in boarding coeducation, —the arrival of girls on this residential campus. Though they brought a welcome new and innovative approach to the staid, somewhat old-fashioned education that was Brentwood up until their appearance, they also quickly became steadfastly committed to the school's most cherished values and beliefs. From this Canadian "first" emerged another group of pioneers who also were to lead the way for future generations. They included teachers Norah Arthurs and Ann Holden Duncan, both exceptional role models whose ability to support and uphold Brentwood's most valued traditions, whilst also promoting what today would be called "girl power", led to instant acceptance of female students into leadership roles in the school. It came as no surprise when Nola Gregson won the Butchart Trophy as the school's top academic in the first year of girls, and Sarah Scott the school's most prestigious award, the Yarrow Shield, in the second year.

Many years have now passed and the world and the school have changed in ways that we pioneers never even dreamed of. But the careful balance between tradition and change has continued, nourished by each successive generation of Brentonians. This guardianship has been a collective one, and today you, the staff and students of 2001, are the custodians of that heritage. The eternal and timeless ideals that were developed and shaped in those far off days, remain. Based upon wisdom, commitment, service, and personal responsibility, they will never be outdated, for they will continue to lead to real success in life, as opposed to mere distinction. By creating truly meaningful lives for themselves, Brentonians have always been able to make a difference to the world in which they live and this tradition of making a difference through service goes all the way back to students I first met in the house, in the classroom, and on the sports field when I arrived at Brentwood from the BC Interior, a working lifetime ago. They de-

serve your respect because they made the school you enjoy today a reality.

As I recall, all the many hundreds of Old Brentonians it has been my privilege over the years to watch move from the school into the workday world and make a significant impact, I realize that they are indeed measuring up to the standard of service required of them in our ever-changing and uncertain world. I now know that we at this school have indeed "built better than we knew" over the last forty years, and that is immeasurably satisfying. Now the torch of knowledge and understanding, the central symbol in the School crest passed from class to class every year since 1961, is in the hands of all of you, whether teachers, or students from Grade Eight to Grade Twelve. If it is to continue to burn brightly, here on this campus and wherever the school's graduates go beyond the school gates, then you must all be sure that you continue to play your part in promoting, through your actions day by day, the ideals and virtues that have helped build this school on the foundation laid by those staff and students who were present at the beginning. Only in this way, can be achieved a vibrant community of unselfish cooperative achievers, united in aims and objectives that transcend the efforts of each, separately.

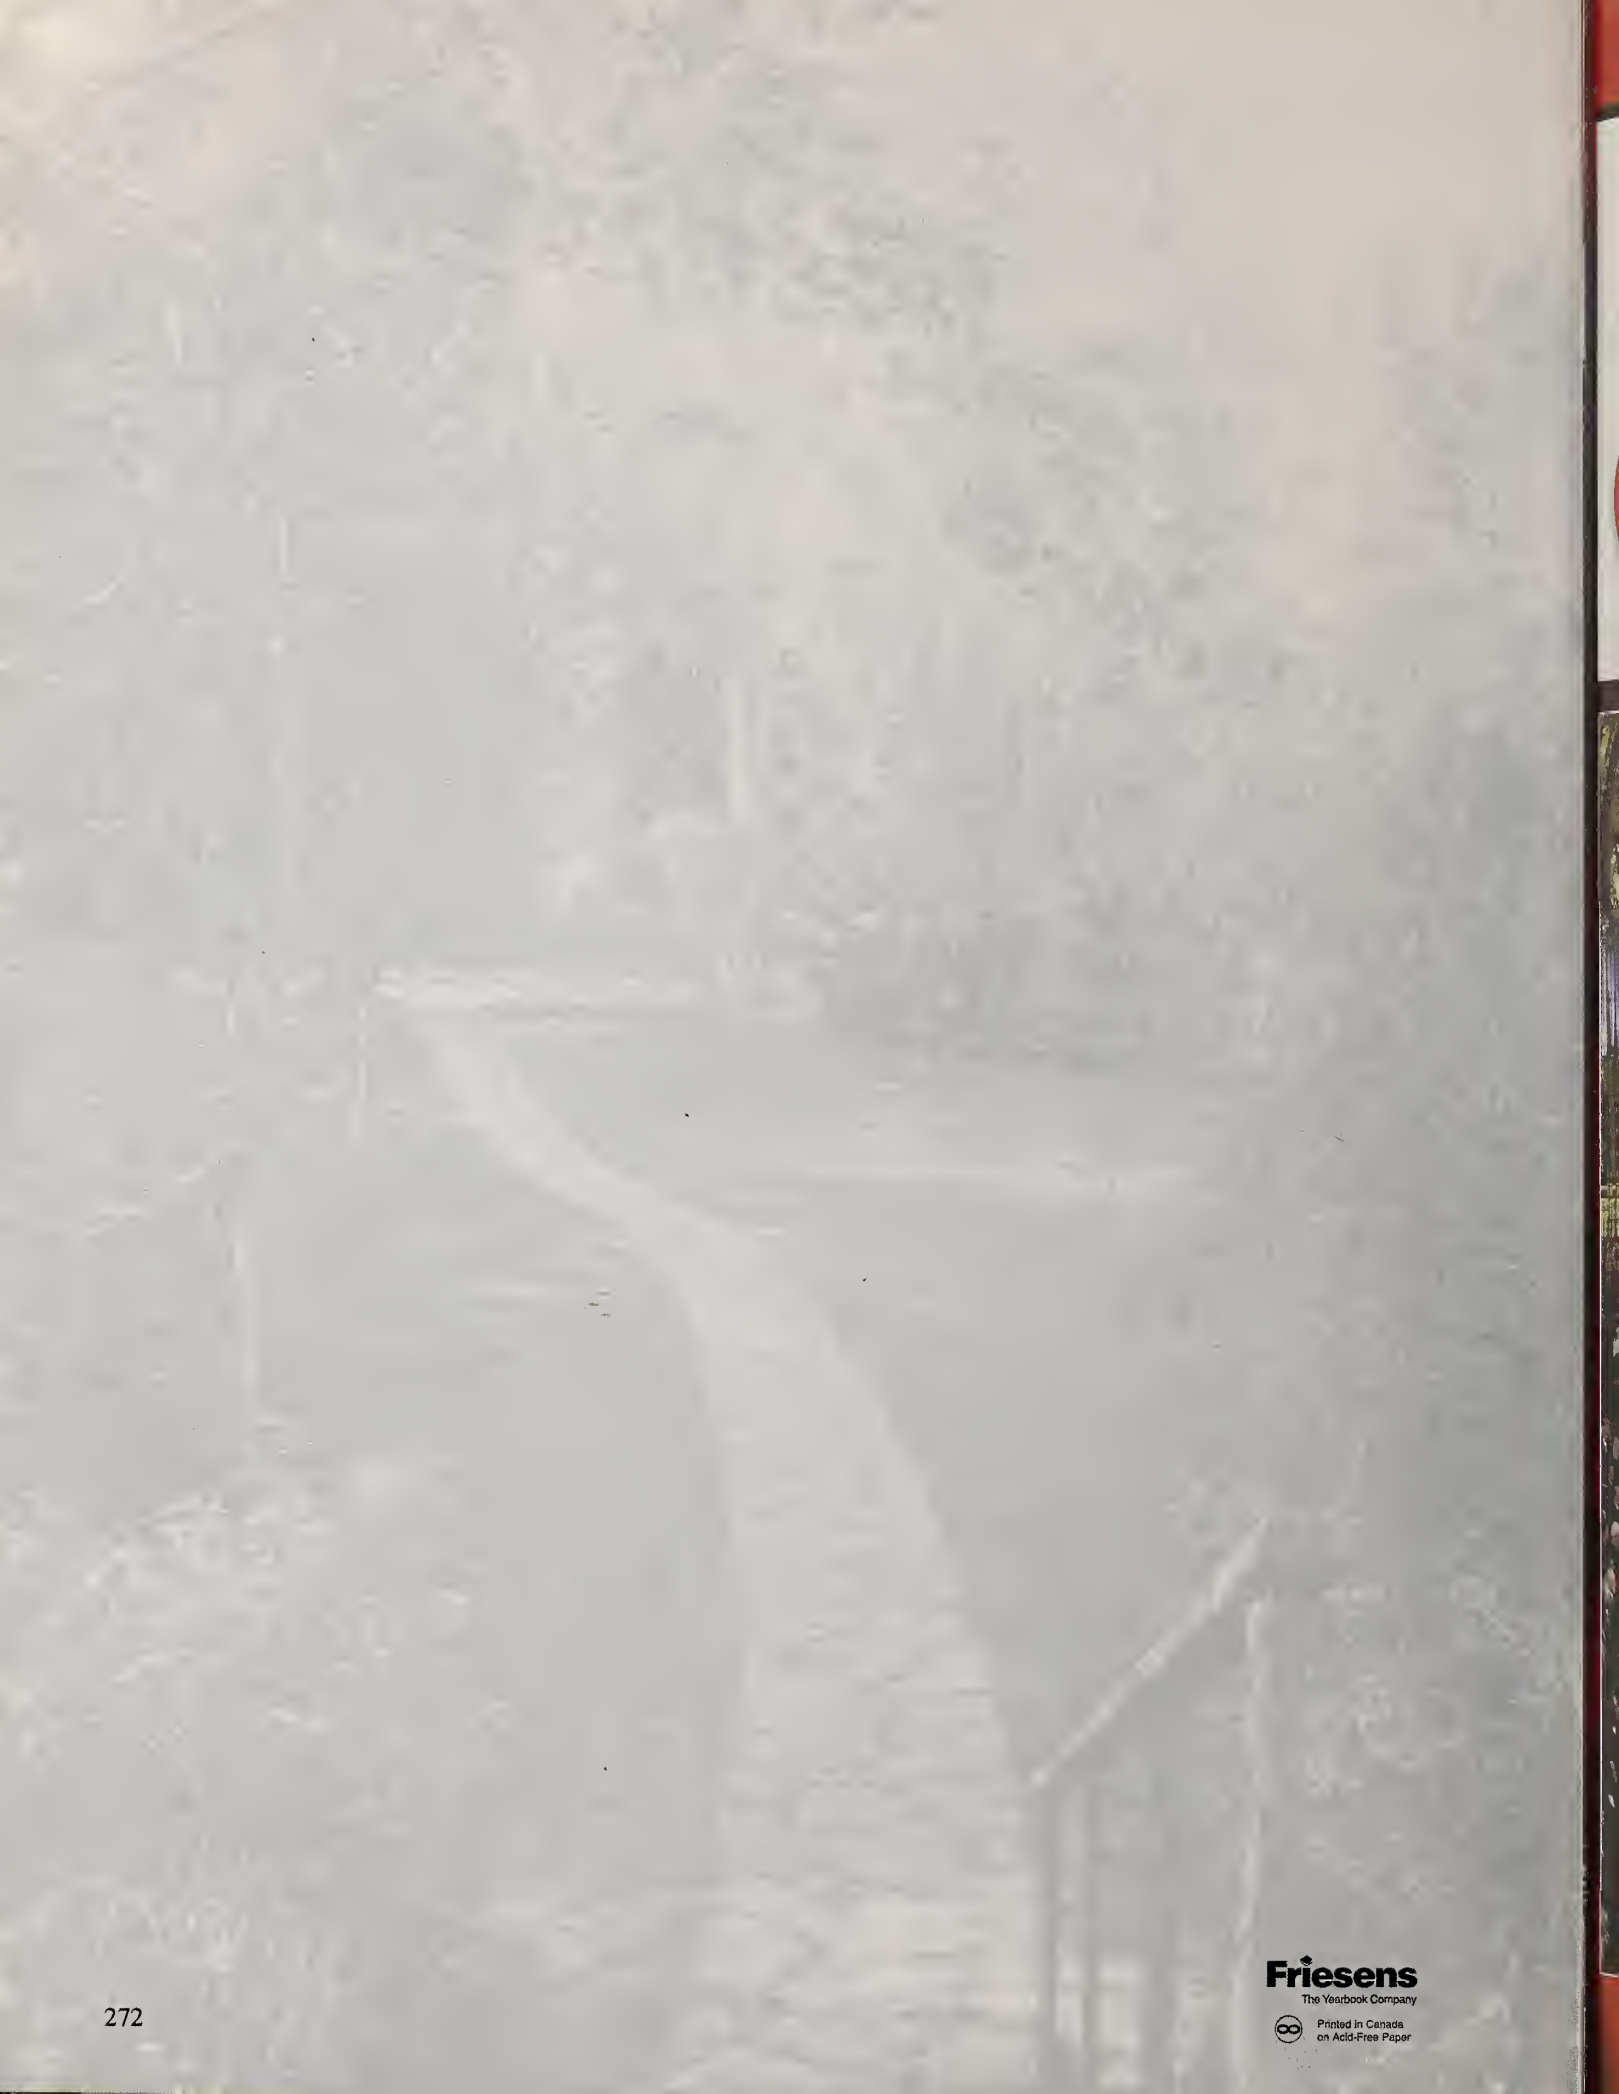

"Come to learn, go forth to serve." Although this motto stands above the entrance to many schools, I like to feel that it personifies everything that Brentwood believes in and stands for. And, as long as it does, it will help to keep alive the memory of those students and teachers who created Brentwood, as well as play a meaningful role in the education of Brentonians today and in the future.

De manu in manum. I now pass on to you, the present generation, the Brentwood torch. Keep its ideals burning bright and hold it high with pride as your predecessors have done every year since 1961. Only in this way can you keep faith with those of us who came before you,—and particularly the pioneers who led the way.

Thank you. And goodbye.

**Nicholas Prowse.**

# World Events

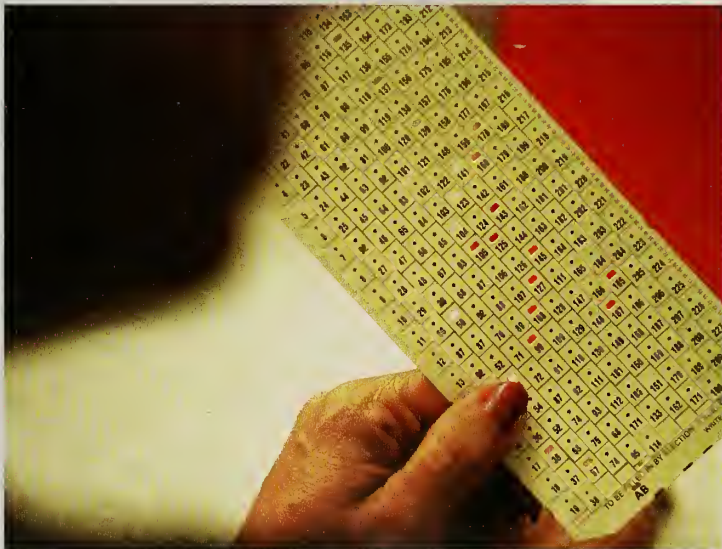

**An unusual sneak attack.** The American flag doesn't offer much security these days. As the conflict in the Middle East was escalating, terrorists bombed the USS Cole, a navy destroyer, in the Gulf of Aden just off Yemen. The surprise attack killed 17 U.S. sailors when it blew a huge hole in the ship's outer hull. The bombing reinforced American fears of terrorist attacks at home and abroad, and pulled the United States deeper into the Middle Eastern conflict as then president Bill Clinton tried unsuccessfully to broker peace in the region.

(AP/Hasan Jamali)

**Picking up the pieces.** In times of need, everyone comes together. A devastating earthquake in Gujarat, India, claimed the lives of some 20,000 people and left nearly one million homeless. The most powerful quake to hit the region in half a century also claimed lives in neighbouring Pakistan. The international community rallied to help search rubble for survivors and to rebuild the region.

(AP/Paras Shah)

**The chad is stuck.** And it's dimpled, and torn, and punctured, and whatnot. Those are some of the arguments former U.S. Vice President Al Gore's team of legal experts made in trying to secure a win for the Democrat in the presidential election. The contest, which dragged out for weeks and made America the butt of jokes around the world, came down to the contested—and confusing—Florida ballots. The Supreme Court eventually put George W. Bush into the presidency—and an independent recount long afterwards confirmed that he, indeed, won the state.

(MACLEAN'S/Phil Snel)

**Entombed in the deep.** The people pled, the world answered, but the Russian leadership hemmed and hawed, reluctant to seek outside help after its Kursk submarine sank in icy Arctic waters. Russians were outraged that, despite offers from recovery specialists from all over the globe, it took four long days for the government, whose own efforts failed, to agree to the aid. But by then it was too late. None of the 118 crew members made it out alive.

(AP/NTV)

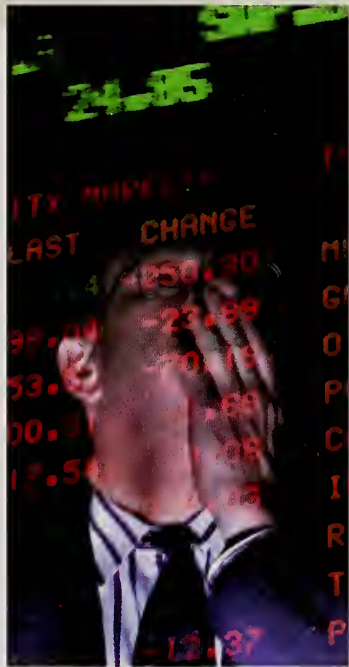

**A peaceful choice?** Israelis chose hard-liner Ariel Sharon as their new prime minister in a tense election after Ehud Barak failed to end the fighting between his people and the Palestinians. Observers inside and outside Israel blame right-winger Sharon as the catalyst to the full-blown recent violence between the warring peoples, but the majority of Israelis clearly believed that his firm approach is necessary to achieve lasting piece. (AP/Davis Guttenfelder)

**"Si" to Fox.** Mexicans demanded change, and they got it. Former businessman Vicente Fox Quesada managed an upset win at the ballot box in the country's presidential race. Voters, tired of years of rampant corruption, crime and poverty, chose the right-winger and devout Catholic whose campaign slogan was a simple word: Change. Fox, an ardent North American free trader, wants to create similar ties with the European Union. (AP/Marco Ugarte)

**What goes up...** Buy, buy, buy! Sell, sell, sell! It was a rocky year for the once darling technology stocks. An IPO went from a sure-fire way to make a cool million to suddenly becoming a four-letter word after most dot.com companies failed to meet revenue targets, despite the injection of more investment dollars than you can shake a stick at. (CP/Kevin Frayer)

**Disaster.** Until last summer, it was considered the safest way to fly. The Concorde was the toast of the aviation world until a fatal accident near Paris killed 113 people when the plane plummeted shortly after takeoff. Preliminary investigations pointed to a piece of metal on the runway as the cause of a ruptured fuel tank that burst into flames, engulfing the whole plane. (AP/Laurent Rebour)

**Tire storm.** Talk about road rage. U.S. Congressional hearings, possible criminal charges and mounds of bad media turned a long-time business partnership into a mess of finger pointing and blame. The controversy over deaths and injuries possibly caused by rollovers of Ford's Explorer SUV caused some consumers to buck the trend of purchasing ever larger vehicles and created a rift between Ford and tire manufacturer Bridgestone/Firestone. (AP/Linda Spillers)

# Canadian Events

**The last pirouette.** He was our country's most beloved post-war leader, although some hated him with a passion. Pierre Elliott Trudeau captured the hearts of a nation when he emerged on the political scene in the 1960s. The charismatic bachelor prime minister with his devil-may-care attitude had women swooning, Westerners fuming, and people across the country captivated. A little bit of Canada's fire was lost with his passing in September at age 80. Thousands waited silently for hours in order to glimpse his coffin lying in state in the Centre Block on Parliament Hill. The week of emotional outpouring unleashed by his death ended with the eloquent eulogy of his eldest son Justin, 29, at the Montreal funeral. Trudeau was prime minister of Canada for all but nine months between 1968 and 1984. (CP/Paul Chiasson)

**Free falling.** Perhaps, you can't blame Canadian passengers for their recent bout of air rage. Merger woes have gripped Air Canada president Robert Milton after he successfully swallowed Canadian Airlines. Despite Milton's 180-day promise to get back on track, plane delays and cancellations, ticket confusion and lost luggage stories had customers fuming. Adding fuel to the fire, Air Canada announced it would be reducing its work force following no-layoff assurances issued at the time of the takeover. And smaller rivals have cried foul over alleged unfair pricing by the newly-created air giant. (CP/Tom Hanson)

**In Canada, we do things differently.** There were no dimpled chads, confusing ballots or controversial hand recounts. A clear winner emerged in the Canadian federal election. Prime Minister Jean Chrétien, giving a victory hug to wife Aline, (above), took a gamble calling an early election and easily won a third term with an overwhelming majority. The contest, which started off as amicable, grew ugly and personal by the end. Canadian Alliance leader Stockwell Day was often attacked for his religious beliefs and positions on abortion and homosexual rights. (MACLEAN'S/Phill Snel)

**Pas adieu, mais à plus tard.** The end of separatism? Not likely. Even with the political retirement of Parti Québécois premier Lucien Bouchard, the push to make Quebec its own nation won't likely abate. The charismatic politician, who once was a federal cabinet minister under Brian Mulroney, nearly led the sovereigntists to victory in the 1995 provincial referendum. But the movement has hardly died. Bouchard's successor, Bernard Landry, is a fervent separatist. (CP/Ryan Remiorz)

**A touch of joy.** She is the “miracle baby.” But Edmonton doctors say Erika, the 13-month-old daughter of Leyla Nordby, had a better chance of surviving exposure to the cold than an adult would. The toddler nearly died from hypothermia—her heart stopped for two hours and her lips froze shut—after wandering into -24C temperatures and then falling, before being discovered by her mum who woke up in the middle of the night and noticed her missing. (CP/Larry Wong)

**Don't drink the water.** Is your water safe? Well, Ontario learned a valuable lesson in water decontamination, tragically. Seven people died and many of the other 1,000 residents of rural Walkerton, Ont., got severely ill when the water they were drinking became poisoned with a deadly strain of E. coli bacteria. A provincial inquiry revealed the utilities manager and the waterworks foreman did not know how to operate a treatment plant, employees were drunk on the job, and water tests were routinely falsified. (CP/Kevin Frayer)

**Muggles, wizards and dragons.** All it takes is a little bit of magic to capture the imagination of children the world over. Once the Harry Potter books caught on, writer J.K. Rowling, who filled Toronto's SkyDome with 60,000 mostly children for a reading, earned the celebrity status normally reserved for movie and rock stars. Publishers and book stores could barely keep up with the demand for the latest installment in the children's-book-series-cum-cultural-sensation, *Harry Potter and the Goblet of Fire*. (AP/Alastair Grant)

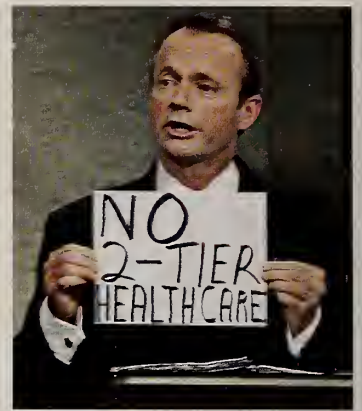

# Canadian Events

**Terror by the lake.** Tragedy often strikes at the least likely moment. A restful July weekend by the water's edge turned deadly suddenly at Pine Lake, Alta., when a tornado tossed campers and massive trailers into the water. Canada's most deadly twister in 13 years claimed 11 lives and caused millions of dollars of property damage. Observers said it was a miracle that more people weren't hurt. (CP/Adrian Wylid)

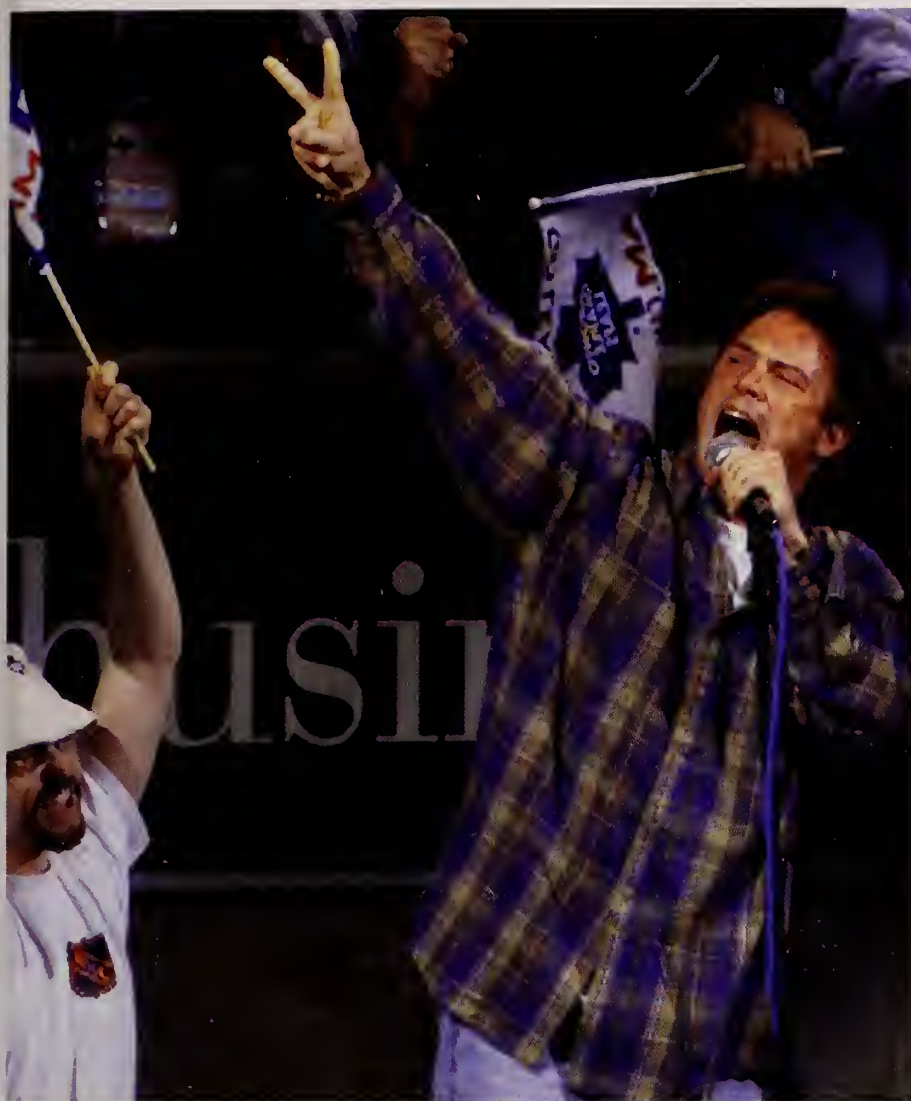

**Brand new Day.** Unite the right. That was the clarion call for conservative-minded politicians and people earlier this year as the Reform party unsuccessfully tried to merge with the Progressive Conservative party, led by Joe Clark. A leadership race and name change later, former Reform leader Preston Manning was out and Stockwell Day, former Alberta finance minister, was in. But after Day failed to make promised inroads in Ontario and eastern Canada, the new leader was in political hot water over a \$70,000 political contribution and a deal in which Alberta taxpayers footed the \$700,000 bill for settling a defamation lawsuit laid against the former provincial politician. (CP/Tom Hanson)

**Back of the class.** Some call it foreshadowing. But the boomers' legacy is beginning to catch up with them. As their children—the echo generation—enroll in university and college courses in larger numbers, institutions are scrambling to manage the demand. Too few spaces and too many students mean the contest for a desk in Canada's ivy-covered halls is tougher than ever. And all this in a political climate where funding for education hasn't kept pace—in some cases even diminished—from the days when boomers were hitting the books. (MACLEAN'S/Rick Chard)

**The rant heard across a nation.** My name is Joe, and well, you know the rest. An edgy commercial was elevated to the level of cultural status when "The Rant" series of ads captured a streak of patriotism not often seen in Canadians. Politicians even brought reels of the spot to Washington, D.C., to use as an ice breaker during cultural-trade talks with the Americans. Sadly Jeff Douglas, the Truro, N.S. native who played "Joe Canadian," was last seen auditioning for movie roles in Los Angeles. (CP/Kevin Frayer)

**Hockey Night in America.** The news, for once, united Quebec. All mourned the sale of the beloved Habitants, the Montreal Canadiens to, yes, an American. Owners Molson Inc. sold a majority share of the team, a Quebec icon as well as part of Canada's cultural legacy, to Colorado businessman George Gillett Jr., (left), wearing a Canadiens jersey alongside former player Henri Richard. The \$275-million sale came after no Canadian stepped forward to buy the ailing franchise.

(CP/Paul Chiasson)

**Chilly experience.** Many Canadians were seeing red this winter. The red of their bank balances, that is, after energy costs hit levels unseen in decades. Extreme weather in many regions compounded with increased costs meant many businesses and individuals had to cut back on their heating and other energy needs. In Alberta—where oil and gas drives the economy—rebate checks were being handed out to keep some companies from fleeing the high energy prices. Consumers were entitled to receive up to \$300—and returned the favour by providing Premier Ralph Klein with his third straight majority. (CP/Robert Taylor)

**Imprisoned for killing his daughter.** Unless Canadian politicians step in, Robert Latimer will serve at least 10 years behind bars for killing his severely disabled 12-year-old daughter in 1993. Tracy was a quadriplegic who appeared to be in constant pain from a severe form of cerebral palsy. The case went all the way to the Supreme Court which ruled unanimously against Latimer, who claimed he killed Tracy to alleviate her suffering. However, the sympathetic judges left the door open for a federal cabinet pardon. (CP/Kevin Frayer)

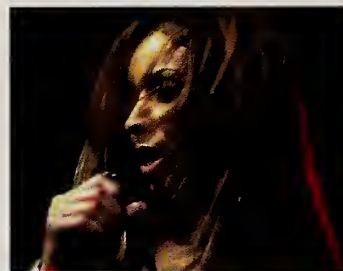

**Born to bare.** They are clearly one of Canada's most popular—and funniest—exports. The Barenaked Ladies hit it big this year with a new album, a documentary, and a Grammy nomination. The documentary, *Barenaked in America*, was directed by former *90210* star Jason Priestley and follows the band on their 1998 U.S. tour. Their hit "Pinch Me" on the album *Maroon* earned the Ladies a Grammy nomination. The band was also handed a key to hometown Toronto, nearly a decade after being banned from performing in front of City Hall by the then mayor because, she said, the group's name objectified women. Seems not everyone got *that* joke. (MACLEAN'S/Phil Snel)

**Pop goes the music.** Teen pop was shut out of the Grammys. But 'N Sync proved the music genre is gaining more popularity every day. The group performed at the Super Bowl with Britney Spears and Backstreet Boys. Its second album, *No Strings Attached*, ruled the charts and the cash register, selling 10 million albums by the end of 2000, beating out Spears who came in second with eight million copies of her sophomore disc *Oops... I Did it Again*. (AP/Michael Caulfield)

**The real digital divide.** Computer users who download music are looking for another application after music labels shut down Napster Inc., founded by Shawn Fanning, (above), for copyright infringement. Music companies claimed untold dollars in lost album sales due to the file-swapping online despite a gangbuster year in record sales. Meanwhile, police in Belgium raided homes of people who were warned to stop using Napster.nour. (AP/Paul Sakuma)

**My oh, Mya.** Carrying the youth torch. Born in Washington, D.C., dancer-turned singer Mya Marie Harrison already has two albums to her name. She is best known for choreographing the Broadway sensation *Bring in Da Noise, Bring in Da Funk*. Not satisfied with that success, she spread her artistic talent into music. Mya released her 1998 eponymous album at the age of 18. Her latest, *Fear of Flying*, wasn't as well received by critics, but listeners flocked to her shows in droves. (AP/Harry Scull Jr)

**And baby makes three.** It just gets better. First Celine Dion dropped her \$20 million suit against the *National Enquirer* after it retracted a story claiming that the international pop sensation was pregnant with twins. Then in January, the Quebec-born megastar, who is married to her manager, René Angélil, gave birth to a six-pound, eight-ounce miracle boy, three weeks before his Valentine's Day due date. René-Charles was conceived via in vitro fertilization, and Dion says she may try again with another fertilized embryo stored in a New York City clinic. (CP/Richard Drew)

**Just a material girl.** At 42, the Material Girl finally settled down, maybe. She took the hand of 32-year-old British filmmaker Guy Ritchie in a nine-part, December ceremony at Skibo Castle in Dornoch, Scotland that was as notorious for its secrecy as for its star-studded guest list including the likes of Sting, Gwyneth Paltrow, Rupert Everett, and Donatella Versace. Stella McCartney was the maid of honour. (AP/Michael Caulfield)

**Rock 'n rap.** The original American bad boy, Kid Rock, shed a tear this year when his pint-sized MC "Joe" Calleja, aka Joe C, passed away. The three-foot, nine-inch rapper died at age 26 following a lifelong battle with Celiac disease, an intestinal disorder that required him to take 65 pills a day and regular treatment on a dialysis machine. Rock, (above), delivered a touching memorium at the American Music Awards in Los Angeles, where he won the award for best male pop/rock artist. (AP/Laura Rauch)

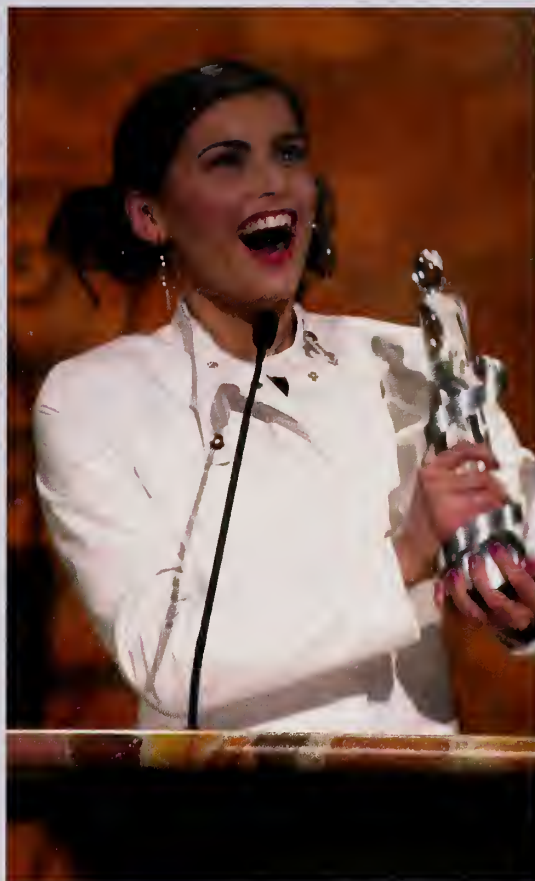

**Ballad for the fallen.** It should have been a celebratory weekend filled with music. Instead, it turned to tragedy as nine people were trampled to death and dozens more injured when thousands of surging Danish Pearl Jam fans snapped a barrier separating them from the stage during a performance just outside Copenhagen. The band, which was absolved of any responsibility, had asked the crowd to stop pushing. Some 50,000 people were in attendance at the concert. (AP/Kasper Wenstrup)

**Guess Who's coming to dinner!** As Thin Lizzy would say, "The boys are back in town." They first emerged from Canada's wheat fields in the 1960s to rock the teens of the day. And nearly three decades later, the aging rockers Guess Who did their best Eagles imitation and got back together for a cross-country reunion tour. The band brought us such classic rock tunes as "American Woman." (CP/Fred Greenslade)

**Slim and shady.** Will the real Slim Shady please stand up? Is he the homophobic and misogynist rapper who hates his wife and resents society? Or is he the down-trodden white rapper from Detroit who is simply misunderstood? We may never know the real answer, but Marshall Mathers, also known as Eminem, definitely lit a fire this year with the controversial lyrics on songs such as "Stan" and "Kim" on his second album *The Marshall Mathers LP*. The controversy dogged him all the way to the Grammys in Los Angeles where, while gay protesters chanted outside, Mathers performed inside with homosexual icon Elton John, hugging him above. (AP/Kevork Djiansezian)

**She's gonna fly away.** Whoa Nellie, indeed! It was a strong year for women Canuck musicians. Chief among them: Nelly Furtado. The Portuguese-Canadian singer-songwriter from Victoria, B.C. released her debut album *Whoa, Nelly!*, featuring a refreshing first single "Like a Bird." Furtado took home four Junos at this year's awards, including best new solo artist. (MACLEAN'S/Peter Bregg)

**Duets.** Which awards get front place on the mantel when a couple has two stars? That's the enviable domestic dilemma for Faith Hill and Tim McGraw. Hill won three Grammys, including country album of the year, for her disc *Breathe*. Earlier in the year, she and McGraw, a country music star in his own right, were crowned female and male vocalist of the year, respectively, at the Country Music Awards.

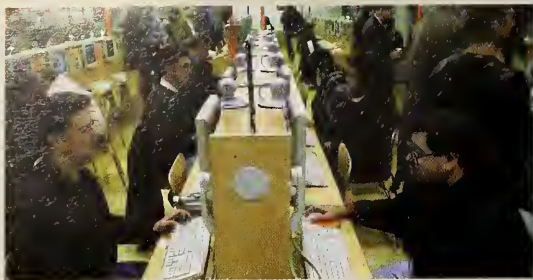

(AP/Mark J. Terrill)

**It's their Destiny.** How does Destiny's Child get down like that? "Independent Woman (Pt. 1)," their blockbuster single from the *Charlie's Angels* soundtrack, lasted months in the top 10 of popular radio and music video charts. The song was released in the midst of a Destiny's Child frenzy caused by the girl group's most recent album *The Writing's on the Wall*, despite the rotating roster of vocalists. (AP/Tina Fineberg)

# Lifestyles

**How much is that doggy in the browser window?** It's no shock to discover that Internet use is up among all people, with teens leading the way. In Canada, 85 per cent are wired. Most frequent usages include instant messaging, doing homework and reading gossip on favourite celebrities. Still, industry forecasts of online shopping may have to be amended downward from the expected \$4 trillion in global transactions by 2003. A recent study found that, while many teens like to window shop online, only a quarter actually make purchases.

(AP/Stuart Ramson)

**Sweat it out.** Stop packing in those nasty, fatty snacks. That's just one message fitness educators have been trying to feed today's youth. It seems the fitness bug that bit people in their parents' generation, like Tammy Corkum of Halifax (above), hasn't filtered down to today's kids. More video games, less physical education classes, and a host of other factors mean young people are less active—and more out of shape than ever. A number of new advertising campaigns are aimed at making teens physically—and mentally—fitter and to stave off an obesity epidemic. (MACLEAN'S/ Dan Callis)

**Sit. Stay. Roll over.** It whines when it's sad and barks when it's happy. It also sits, sings, even dances on tiptoes. It's Poo-chi—and when its sensors detect another Poo-chi nearby, they "talk" to one another. The robot dog, one of a pack of "Mini-me" versions, set children's Christmas lists afire. The marvels of technology.

(AP/Itsu Inouye)

**Snow's up.** Hang 10, baby! Er, rather, you're dialed-in. That's snowboard speak for a move tuned to perfection on the slopes. The sport is picking up steam faster than a boarder on a 90-degree incline. And the X-Games are the Olympics of the sport with events such as the snowboard cross where five participants race down a course, hitting jumps and turns, all the while trying not to slam into one another. You say you're already tired of the snowboarding? Then try the snowdeck: a snowboard without bindings topped by a skateboard without wheels.

(CP/Jacques Boissinot)

**Game on.** It was elbow-knocking time at the electronics store to purchase PlayStation 2. Kids, both young and old, clamoured for the PS2—the most-anticipated video game system ever—and the scarcity of the \$450 units meant month or more-long waiting lists. Sony's bid to win a larger piece of the \$30 billion global gaming market may have worked. Three months after the launch of the PS2, rival Sega said it would no longer build consoles, but focus instead on developing games for other systems like Nintendo's GameCube and, yes, the PS2. (CP/Ryan Remiorz)

# Television

**Jennifer and Brad.** The heartthrob marries hot stuff. Film actor Brad Pitt sealed the deal with *Friends* star Jennifer Aniston in a secluded Malibu, Calif. ceremony last summer. Many fans, both men and women, shed a few tears over these two no-longer-eligible beauties. Pitt's recent comment that he isn't ready for kids notwithstanding, the couple will no doubt have beautiful children. (AP/Michael Caulfield)

**You're not the boss of me, now.** Quite possibly the most innovative laugh-out-loud sitcom to hit the small screen in years, *Malcolm in the Middle* is the story of a genius middle child, played by Frankie Muniz, living in a less than tranquil suburban family setting. Fox TV gave the nod recently for a big-screen adaptation of the popular series.

**Teens rule.** Teens love soapy dramas. At least that's the message that comes from watching television. The void opened by the exit of Fox's *90210* and *Party of Five* was quickly filled with *Popular*, *Grosse Pointe*, and *Gilmore Girls*, (above), competing with the Dawson-Joey-Pacey love triangle on *Dawson's Creek*. Despite a devoted fan base, *Roswell*, the show about alienated youth—literally—wavers in its battle against sci-fi soap rivals *Buffy the Vampire Slayer* and its spin-off *Angel*, and continues an on-again, off-again relationship with the WB.

**Tom and Drew.** The former bad girl of the acting world has said "yes" to Canadian comic grosse-out king Tom Green. Plans to wed during a *Saturday Night Live* broadcast were nixed after Barrymore said an on-air wedding wouldn't be appropriate. But the limelight didn't stop her from casting her new beau as her romantic lead in the year's blockbuster comedy *Charlie's Angels*. The pair spent their Christmas holidays at Green's home near Ottawa. (AP/Kevork Djansezian)

**More than one survivor.** Do you have what it takes to survive? CBS went into overdrive to produce *Survivor 2: The Australian Outback* after a ratings bonanza the first time around. The original gave new definition to friendship and made "You are off the island" part of our every day lexicon. It also spawned a host of reality TV programs including *Big Brother*, *The Mole*, *Making of the Band*, and Canada's *Popstars*. But the most controversial *Survivor* offspring was *Temptation Island*. Viewers, especially teens, tuned-in in droves to watch whether couples would cheat on their significant others with one of 26 eligible and attractive men and women trained in the art of seduction. In the end, the remaining couples stayed together.

**Who says history is dull?** It was one of the most ambitious projects ever undertaken by Canada's public broadcaster, but the gamble paid off in kudos and viewers. CBC brought the \$25 million, 30-hour, commercial-free Canadian history lesson into living rooms across the nation thanks to the efforts of 15 directors, seven camera crews, 240 actors and hundreds more re-enactors. The series was the brain-child of well-known producer, Polish immigrant Mark Starowicz, who came here at the age of 7. (Jean Bernier)

**Saying adieu.** Edmonton-born Michael J. Fox bowed out of his role on *Spin City*, which provided him with his fourth Emmy, (left), because of the onset of Parkinson's disease. The 39-year-old actor made his big break as Alex P. Keaton on TV's *Family Ties* in the 1980s before moving into film and his most recent character on *Spin City*. After revealing his disease, which affects the nervous system, he joined a long list of celebrities who have used their fame for good causes and launched the Michael J. Fox Foundation for Parkinson's Research. (AP/Reed Saxon)

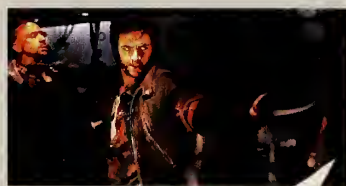

# Movies

**Stop! Go! Yield!** Steven Soderbergh's *Traffic* shed light on one of America's most searing domestic battles, the seemingly fruitless war on drugs. The film earned four Oscars at the March ceremonies, including best director for Soderbergh, who also directed *Erin Brockovich*.

**Are you scared yet?** The surprise comedy hit of the year, *Scary Movie*, (above), brought to us by three of the Wayans brothers, skewered the popular *Scream* and *I Know What You Did...* series. And there's plenty of material left for a sequel, considering this year's crop of scary films: *Dracula 2000*, *Valentine*, *Hannibal*, and the re-release of *The Exorcist*.

**"We aren't what you think we are."** Marvel Comics's misunderstood mutant heroes hit the big screen—finally!—in *X-Men*, Bryan Singer's feature-length romp through New York state. The team trash evil mutants and the Empire State building in the process. With standout performances by Anna Paquin (Rogue), Hugh Jackman (Wolverine), (above), and Patrick Stewart (Professor X), a sequel won't be far behind.

**Live by the sword, die by the sword.** Question: who wants to see a movie about Roman gladiators? Answer: everyone. *Gladiator* was the runaway box office hit and the biggest Oscar winner this year with five awards including, best picture. Hunk Cameron Crowe won best actor for his portrayal of the faithful husband who avenges the death of his wife, fighting soldiers, slaves and tigers in the ancient Roman Coliseum.

**Tom solo.** Tom Hanks scored another hit with *Cast Away*. The story—a concept Hanks has nurtured for more than a decade—asks the questions: What happens when a FedEx courier plane crashes in the middle of the ocean? What if one survivor made it to a deserted island and lived there for years without contact with other humans? His performance earned yet another Oscar nomination.

**Third time's the charm.** America's sweetheart, Julia Roberts, took home the Best Actress Oscar for her performance as the courageous title character in *Erin Brockovich* at the 73rd Academy Awards. This was the third Oscar nomination for Roberts, 33, who made a splash with Richard Gere in 1990's *Pretty Woman*. Earlier in the year, she won a Golden Globe for her portrayal of the flashy woman who, without legal training, spearheaded one of the largest class-action awards in legal history. (AP/Reed Saxon)

**Bring it on!** Cheerleaders were given props in a couple of films devoted to the ever-happy pep squads around the continent (it's a sport, ya know!). Kirsten Dunst cheered for gold in *Bring It On* while Mena Suvari and her perma-smile troop try to help out a friend in need in *Sugar and Spice*, (left).

**Ever so nutty.** From the "Whatever happened to" file. Eddie Murphy tries to reshape his image and put his foul-mouth days behind him (good-bye *Raw*, *Beverly Hills Cop*, and *48 Hrs.*) with a strong sequel to his first family-oriented comedy, *Nutty Professor*, with the better quality *The Klumps*. The second time around, Murphy plays eight roles including professor Sherman Klump who is getting married. But his evil alter ego, Buddy Love, is back to throw a wrench into plans and hilarity ensues.

**Good morning, Angels.** The classic 70s TV show hit the big screen to much audience love. After nearly half a decade in development and a long and tortured process that saw several screenwriters, rebelling actors and new producers, *Charlie's Angels* finally arrived on the big screen in a campy romp as Natalie (Cameron Diaz), Dylan (Drew Barrymore), and Alex (Lucy Liu) solved the kidnapping of a computer programmer and beat the villains with the help of some "Matrix"-styled special effects. Bill Murray, as Bosley, is flanked by the Angels (above).

**Asian invasion.** It's a genre film with style. Chinese audiences may have seen the likes of it before and been put off by the Mandarin accents of Chow Yun-Fat and Michelle Yeoh, fighting above. But director Ang Lee's *Crouching Tiger, Hidden Dragon* caught on like wildfire this side of the Pacific. The 46-year-old director of the 1997 hit *The Ice Storm* likened his kung-fu movie to a character-driven period piece rather than a contemporary action thriller. *Crouching Tiger* won four Oscars including best foreign film.

**You can't fight the moonlight.** In *Coyote Ugly*, a young aspiring songwriter heads to New York City to pursue her dreams. But reality rears its head, and she takes up a job in the city's hottest bar, Coyote Ugly. The film stars up-and-coming actresses Piper Perabo, Maria Bello, Melanie Lynskey, Izabella Miko, and supermodel Tyra Banks. If you can believe it, the movie is based on an actual bar.

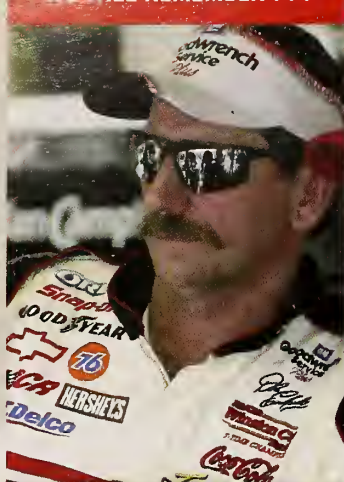

**Less than perfect.** Sometimes artistic license can get you into trouble. Family members of Frank William Tyne, the man who piloted the Andrea Gail fishing vessel on its ill-fated voyage which was the basis for the best-seller and movie *The Perfect Storm*, sued Warner Brothers for their depiction of the captain. The movie, based on actual events, follows the fishermen in their last hours as the boat is caught in a sudden storm and lost in the North Atlantic. It stars heart throbs George Clooney as Tyne, (above), and Mark Wahlberg. The suit alleged Tyne was portrayed as reckless.

**Throwing in the towel.** Heartbreak in Hollywood. One of tinsel town's most attractive couples, Tom Cruise and Nicole Kidman, are calling it quits after just over a decade together. The pair, who have two adopted children, met on the set of *Days of Thunder*. A press release cited "difficulties inherent in divergent careers" as their reason for breaking up.

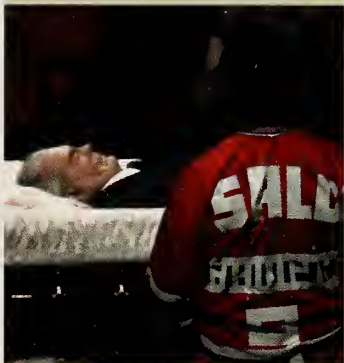

## WE WILL REMEMBER . . .

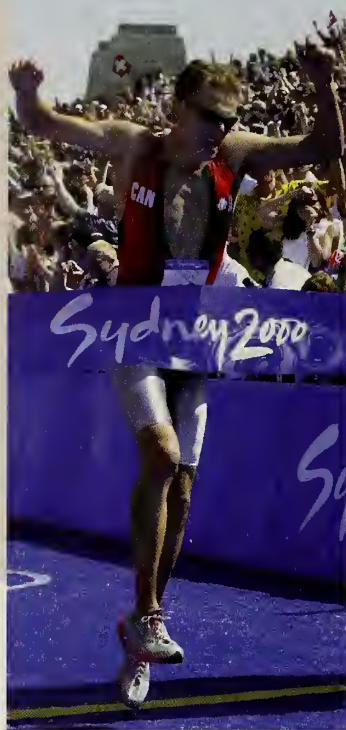

**Tragic legacy.** NASCAR legend Dale Earnhardt Sr. died at the Daytona 500 this year after the 49-year-old's stock car slammed into the wall at 290 kph. The accident happened during the final lap of the race as Earnhardt tried to protect the lead held by a teammate, half a mile from the finish line. Fans flocked to the Florida funeral from around the world to pay tribute to the driver known as The Intimidator.

(AP/Paul Kizzile)

**Rocket Richard.** They called him The Rocket. The goal scoring hockey legend Maurice Richard, 78, who led his beloved Les Canadiens to eight Stanley Cups, passed away after a three-year battle with abdominal cancer. People came from across the country to visit his casket, lining up for hours to see the former Montreal Canadiens winger. A player among players, Richard held 19 NHL records, and his feat of 50 goals in 50 games has only been broken by Wayne Gretzky.

(CP/Ryan Remiorz)

**Golden glory.** He won it for his 96-year-old grandmother—and Canada. Simon Whitfield, 25, captured hearts across the country when his triathlon victory in the first week of the Sydney Games last summer gave Canada our first gold medal. The Kingston, Ont. native, who is involved in kids water polo, was also honoured as Canada's flag-bearer in the closing ceremonies.

**But are there benefits?** It was the most bucks ever shelled out for a baseball player. The Texas Rangers signed free-agent Alex Rodriguez, who had been playing for the Seattle Mariners, to a 10-year contract worth \$252 million (U.S.). The deal makes the All-Star shortstop, who batted .321 with 41 home runs and 132 runs batted in last year, the highest-paid athlete in sports history. So is he worth the cost? Team owners say ticket sales are up 150 per cent.

(AP/Elaine Thompson)

**Green with envy.** How do you know you've made it as a golfer? When you start beating the game's top players, you know you're well on your way. That's just what Canadian Mike Weir managed when he took home a cool \$1 million (U.S.) at the American Express Championships in Spain, his second tour victory, beating the likes of Tiger Woods, Lee Westwood, Nick Price, and Vijay Singh. Weir is clearly one to watch.

(AP/Rich Pedroncelli)

**Ladies first.** Welcome to the big leagues. Canadian Queen of the greens Lorie Kane, 36, won her first tournament last year after five otherwise successful years on the LPGA tour. The ever-smiling Charlottetown, P.E.I. native, one of the most popular golfers on the ladies' golf circuit, followed up that victory in St. Louis with three more in 2000, topping \$2 million (U.S.) in career earnings.

## THE 2000 CHAMPIONS

STANLEY CUP	NEW JERSEY DEVILS OVER DALLAS STARS	4-2 SERIES
GREY CUP	B.C. LIONS BEAT MONTREAL ALOUETTES	28-26
SUPER BOWL	BALTIMORE RAVENS DESTROY NEW YORK GIANTS	34-7
PGA (TOP MONEY)	TIGER WOODS	\$ 9.2 MILLION (U.S.)
LPGA (TOP MDNEY)	KARRIE WEBB	\$1.9 MILLION (U.S.)
NBA	L.A. LAKERS OVER INDIANA PACERS	4-2 SERIES
WORLD SERIES	NEW YORK YANKEES DEFEAT NEW YORK METS	4-1 SERIES
EURD 2000	FRANCE OVER ITALY	2-1
2001 MEN'S JR. CURLING	CANADA OVER DENMARK	7-6
2001 WOMEN'S JR. CURLING	CANADA DEFEATS SWEDEN	6-4

**Super Mario.** He's no super hero. But Mario Lemieux's talent on ice might be just what the game needs to raise the excitement level in the NHL. The six-time scoring champion and Hall of Famer made a dramatic return to the game from a more than two season retirement caused by chronic back problems. Lemieux, now 35, suited up again for the Penguins—the team he owns—just before New Year's and promptly scored a goal in his first game. His play has turned around his team's fortunes both on and off the ice. (AP/Kelith Srakovic)

**A Canadian moment.** It took an athlete who had defected from Nigeria, and now sporting the Canadian jersey, to instill a nation with Olympic pride. Daniel Igali took the gold in freestyle wrestling on the last day of the Sydney Games, and then paid tribute to his adopted country by kissing and wrapping himself with the Maple Leaf flag. Igali defected during the '94 Commonwealth Games in Victoria, B.C., placing 11th in that competition. Here he wrestles Emzar Bedineishvili of Georgia.

(CP/Mike Ridewood)

**Take the No. 7 train.** It was a wild series. And not just because it was the first time in 44 years that New York played New York in the World Series. The last time, the Yankees won against the then Brooklyn Dodgers, and they won again last year, defeating the New York Mets in five games. It was the Yankees third straight victory and their shortstop, Derek Jeter, was named the Series Most Valuable Player. (AP/Ron Frehm)

**Ain't no American pigskin.** Canadians play their own brand of football. It's fast and furious and just as exciting as the American version. This year's face-off for the CFL's Grey Cup between the B.C. Lions and the Montreal Alouettes was no exception. The Lions took it 28-26. Quarterback Damon Allen, (left), and kicker Lui Passaglia savour the victory after winning the Cup.

(CP/Frank Gunn)

**Last days of football.** Wrestling kingpin Vince McMahon took his special brand of sports marketing to a new playfield. The week following the NFL Superbowl, McMahon introduced the world to his own version of football, the XFL—Xtreme Football League. The game features more cheerleader routines; more cameras on the field, above it and in the dressing rooms; while mikes at field level pick up player grunts and the sound of bone-smashing tackles. But after initial excellent ratings, TV audience levels rapidly petered out. (AP/Paul Sakuma)

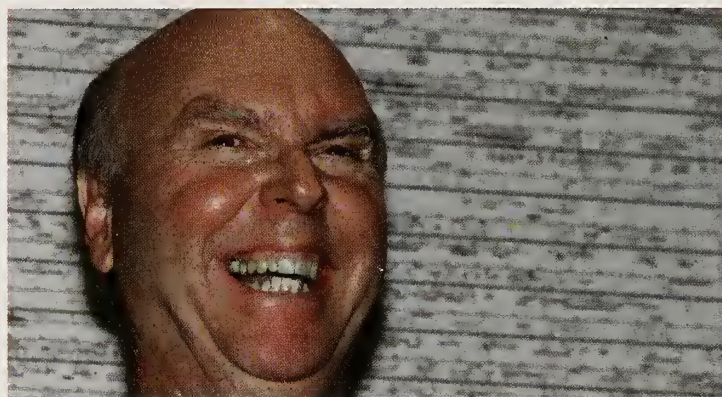

**Ground control to Major Tom.** Mark Garneau must be mastering the space walk by now. The 51-year-old astronaut went up in his third trip in December aboard the shuttle Endeavour, as part of a five-member international crew. Their mission this time around: to deliver, install and activate power-generating solar panel towers on the International Space Station. "I was worried about screwing up, and my hand was shaking a little bit," Garneau confessed about how he felt during his extraterrestrial venture. (AP/Chris O'Meara)

**Outbreak.** Farmers across Europe—and the world—were on high alert. A breakout of foot-and-mouth disease—a virus which affects cattle, pigs, and sheep, but not humans—that began in England spooked European farmers and world trading partners. Thousands of animals were slaughtered in Britain, as were British-imported livestock in France, Germany, Spain, and Holland. The latest European disaster came as much of the livestock industry was still struggling to recover from the mad-cow epidemic of the 1990s. (AP/Alastair Grant)

**Designer genes.** The genetics quest is moving along fast and furious. The race to crack the human genome hit the finish line after two competing groups, one headed by a happy J. Craig Venter, president of Celera Genomics, (above), independently announced it had laid out the 30,000 genes in our DNA—only a third more than round worms. Their analysis also reveals that there is only a 0.01 per cent gene difference among individual humans—a variation of 300,000 letters in the human sequence of three billion. Meanwhile, U.S. and Italian researchers announced joint plans to clone a human. (AP/Ron Edmonds)

**Monkey see...** A breakthrough in gene research. After many failed attempts, scientists in Oregon created the first genetically altered primate in ANDi, a name derived from the shortened "inserted DNA." The green fluorescent protein gene from a jellyfish was successfully inserted in the monkey's DNA prior to fertilization. But ANDi doesn't glow; the gene is dormant in the primate, forcing researchers back to the lab in their efforts to create designer animals. (AP/Oregon Regional Primate Research Center)

**But will you e-mail me in the morning?** A harmless prank or a vicious cyber attack? When a computer virus crippled e-mail systems around the globe, the vulnerable underbelly of the brave new technological world was laid bare. It took authorities several days to track the menace to a computer student in the Philippines. Onel de Guzman, 24, said the virus—named for its "ILOVEYOU" subject line—was a school project and might have accidentally been released onto the Internet. It was estimated the "Love Bug" caused \$15 billion worth of damage worldwide. (AP/Ed Wray)

Maclean's, Canada's Weekly Newsmagazine with 1.7 million readers every week, is a tremendous resource for students and their families. From national and international news, to science and technology, to health and education, business, entertainment and more, Maclean's covers what matters to Canadians quickly, reliably, intelligently, and with a Canadian perspective. In addition to the magazine, Maclean's publishes the annual Guide to Canadian Universities and Canadian Colleges and offers a comprehensive In-Class program for educators and their students. For more information about Maclean's, call 1-800-Macleans (1-800-622-5326) or visit us on the Internet at [www.macleans.ca](http://www.macleans.ca).
